**THE
AGRONOMER**

VOL. VI

**PUBLISHED ANNUALLY BY THE SENIOR CLASS
OF THE
NORTH CAROLINA
COLLEGE OF AGRICULTURE & MECHANIC ARTS**

R.M. Johnson

To

Doctor Frank Lincoln Stevens

The Students' Preceptor

and Friend

This, the nineteen and eight volume,

is affectionately

dedicated

DR. F. L. STEVENS.

Frank Lincoln Stevens

PROFESSOR FRANK LINCOLN STEVENS began his work at this College in 1901. From the first his splendid ability as a teacher was recognized, and his department has become one of the best in the College. No one in the faculty is held in higher esteem by the students than is Dr. Stevens. The students find in him a friend to whom they may go at any time, with an assurance that he will be interested in any of their plans or ambitions. To come in touch with him is to gain inspiration for a life of work and usefulness.

Dr. Stevens was born April 1, 1871, on a farm near Syracuse, N. Y., and is the only son of H. B. Stevens and Helen C. Lincoln. His father, a successful and prosperous farmer, is a descendant of New England colonial stock; his mother is of one of the oldest and most prominent colonial families of Massachusetts. Dr. Stevens's ancestors came to Central New York from Massachusetts about the year 1800, and located upon the farm which is still occupied by the family and known as the "Lincoln Homestead."

Dr. Stevens was educated at Onondaga Academy, Syracuse University, and Hobart College, receiving the degree of B.L. from the latter institution in 1891. After two years at Rutgers College he received the degree of B.S.; and in 1897 the same institution conferred on him the degree of M.S. for post-graduate work done in Ohio State University in 1894-'96. He attended the University of Chicago as Fellow in Botany in 1898-'99, receiving the degree of Ph.D., *Magna cum laude*, in 1900. As Traveling Fellow from the University of Chicago, in 1900-'01, he studied in the German Universities of Bonn and Halle, and by an appointment to the table of the Smithsonian Institution he pursued his biological studies in Italy at the Naples Zoological Laboratories. He studied especially the questions of Water Supply and Sewage Disposal at Glasgow, Edinburgh and London.

While at Syracuse University, Dr. Stevens was Reporter on the *Syracuse University Notes*; and was for two years Editor-in-Chief of the *Hobart Monthly*. He is a member of the Phi Kappa Psi Fraternity; of the Theta Nu Epsilon, Beta Delta Beta, and two other class societies.

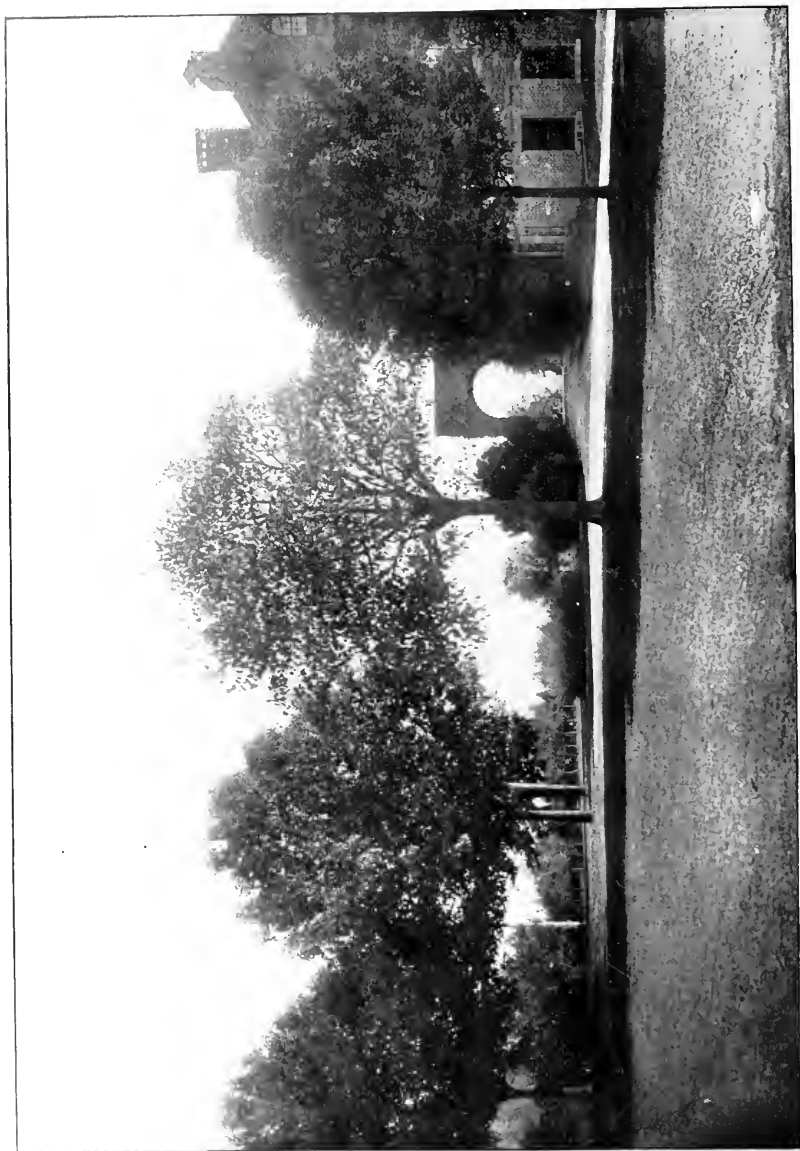

He has held the following positions: Student Assistant at Rutgers College and N. J. Agricultural Experiment Station 1891-'93; Teacher of Science, Racine College, 1893-'94; Teacher of Chemistry and Botany, High School, Columbus, Ohio, 1894-'97; Fellow, University of Chicago, 1898-'99; Analyst in Chicago Drainage Canal Investigation, 1899-'00; Instructor in Biology, N. C. College of Agriculture and Mechanic Arts, 1901-'02; Professor of Botany and Vegetable Pathology since 1902; for some years Biologist and head of the Department of Plant Diseases at the N. C. Agricultural Experiment Station.

Dr. Stevens being a student, investigator, and teacher, is a member of many scientific and educational societies, among them the Wisconsin Academy of Science; Ohio Academy of Science; Charter member of N. C. Academy of Science; President of the same in 1905; Member of the American Breeders' Association;

American Association for the Advancement of Science, 1895; Fellow, 1899; Associate member of the Botanical Society of America; Member of the American Mycological Society; of the Society of American Bacteriologists; and of the American Society of Naturalists; Charter member and Vice-President of the American Nature Study Society; Organizer and Secretary of the N. C. Nature Study Society; for some years member of the N. C. State Board of Examiners; and at present member of the State Board of Examiners for the certification of teachers. He has taught in the Summer Schools at A. and M. College; at Davidson College; and at Teachers' Institutes in many counties. He is a popular lecturer at Farmers' Institutes, and has lectured in more than four-fifths of the counties of North Carolina.

For the past fifteen years Dr. Stevens's work has been in agriculture and biology, and during that time he has published many scientific articles. Chief among these are: The Effect of Aqueous Solutions upon the Germination of Fungous Spores; Laboratory Notes on Teaching Chemistry; The Compound Oospore of *Albugo Bliti*; Some Improvements upon Apparatus for Water Analysis; Die Gametogenese und Befruchtung bei *Albugo*; Studies in the Fertilization of *Phycomycetes*, *Sclerospora Graminicola*; Vegetable Pathology, A Reference Index; Parasitic Fungi on Ohio Weeds; Ohio Parasitic Fungi; Fungi New to Ohio; Fungous Enemies of the Apple, Pear and Quince, with Methods of Treatment; Fungous Enemies of the Peach, Plum, Cherry, Fig, and Persimmon; The Granville Tobacco Wilt; Nutation in *Bidens* and Other Genera; Mitosis of the Primary Nucleus in *Synchytrium Decipiens*; Oogenesis and Fertilization in *Albugo Ipomoeae-Panduranae*; The History of the Tobacco Wilt in Granville County, North Carolina; The Science of Plant Pathology; Purity of Raleigh Milk Supply; Market Milk, Bacteriological Data; An Apple Rot Due to *Volutella*; The *Chrysanthemum* Ray Blight; and A Course in Nature Study. With Professors Burkett and Hill he is a joint author of "Agriculture for Beginners" and the "Hill Readers." Aside from these works, Dr. Stevens has written numerous magazine articles, reviews of scientific literature, and articles for the agricultural press.

In 1897 Dr. Stevens was married to Adeline T. Chapman, of Ohio, whose colonial ancestors are numbered among the prominent families of Virginia and New Jersey. Mrs. Stevens has always taken an active part in the educational life of the College and State. She was assistant in Biology at the A. and M. College in 1902-'03, and teacher of Nature Study in the A. and M., the State, and the Davidson Summer Schools. She is a lecturer at Women's Farmers' Institutes, and a member of the National Committee of the Women's Institute Workers.

SCENE NEAR MAIN BUILDING.

The Sixth Volume

We have struggled through many obstacles and disappointments to present you with this, the sixth volume of *THE AGROMECK*. If we have fallen short of the standard, let your criticism be tempered with charity.

We appreciate the generous assistance rendered us by the Faculty and Students, and wish to thank Mrs. Josephine Lysterly, Miss Myatt, Mrs. Alfred Moretz, Miss Helen Allen, and others, for the sketches they have so kindly made for us.

ARTHUR FINN BOWEN.....	Bursar.

Faculty

GEORGE TAYLOE WINSTON, A.M., LL.D.,
PRESIDENT,
Professor of Political Economy.

DANIEL HARVEY HILL, A.M., Litt.D.,
VICE-PRESIDENT,
Professor of English.

WILLIAMS ALPHONSO WITHERS, A.M.,
Professor of Chemistry.

WALLACE CARL RIDDICK, A.M., C.E.,
Professor of Civil Engineering.

FRANK LINCOLN STEVENS, M.Sc., Ph.D.,
Professor of Botany and Vegetable Pathology.

CHARLES WALTON THOMAS, M.E.,
Professor of Mechanical Engineering.

ROBERT E. LEE YATES, A.M.,
Professor of Mathematics.

THOMAS NELSON,
Professor of Textile Industry.

JOHN SOMERVILLE EATON YOUNG,
First Lieutenant U. S. A.,
Professor of Military Science and Tactics.

Assistants and Instructors

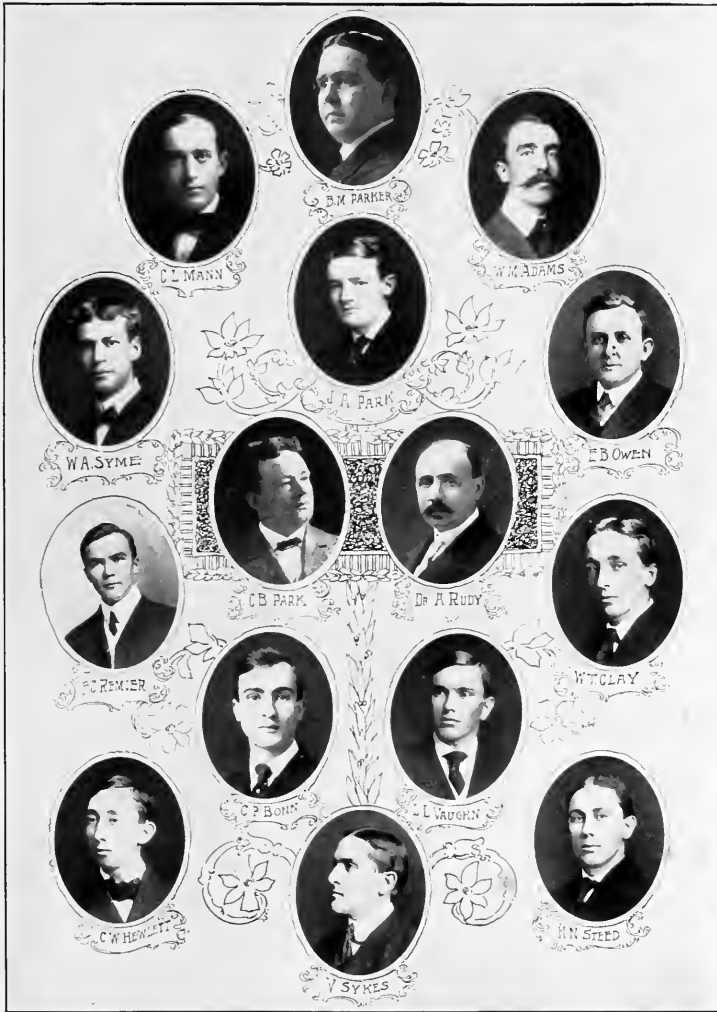

- CHARLES M. CONNER, B.S.A., B.S., *Professor of Agriculture.*
WILLIAM JAMES MOORE, M.E., *Professor of Electrical Engineering and Physics.*
JOHN MICHELS, B.S.A., M.S., *Associate Professor of Dairying and Animal Husbandry.*
GUY ALEXANDER ROBERTS, B.S., D.V.S., *Assistant Professor of Zoology and Physiology.*
BARTHOLOMEW MOORE PARKER, B.S., *Assistant Professor of Textile Industry.*
FRANK C. REIMER, M.S., *Assistant Professor of Horticulture.*
ROBERT SETH CURTIS, B.S.A., *Assistant Professor of Animal Husbandry.*
CHARLES BENJAMIN PARK, *Instructor in Machine Shop and Assistant in Power Plant.*
WILLIAM ANDERSON SYME, B.S., M.S., Ph.D., *Instructor in Chemistry.*
CARROLL LAMB MAXX, B.S., C.E., *Instructor in Civil Engineering.*
THOMAS SIMEON LANG, B.S., C.E., *Instructor in Civil Engineering.*
GEORGE SUMMEY, Jr., Ph.D., *Instructor in English.*
WINFRED MORSE ADAMS, B.S., *Instructor in Electrical Engineering.*
JOHN HOUSTON SHUFORD, B.S., *Instructor in Dyeing.*
ALFRED HENRY THIESENSEN, B.S., *Instructor in Meteorology.*
ABRAHAM RUDY, A.M., Ph.D., *Instructor in Modern Languages.*
RALPH INGRAM SMITH, B.S., *Instructor in Zoology and Entomology.*
JOHN STRAUGHON JEFFREY, *Instructor in Poultry Husbandry.*
CLARENCE ANDREW SPRAGUE, B.S., *Instructor in Physics.*
WILEY THEODORE CLAY, B.E., *Instructor in Woodworking and Pattern-Making.*
JOHN ALSEY PARK, B.E., *Instructor in Mathematics.*
MICHAEL RALPH RICHARDSON, A.M., *Instructor in Mathematics.*
LILLIAN LEE VAUGHAN, B.E., *Instructor in Drawing and Mechanics.*
CARL PHILIP BONX, B.A., *Instructor in English.*
CLARENCE WILSON HEWLETT, B.S., *Instructor in Physics.*
VANCE SYKES, B.E., *Instructor in Mathematics and Civil Engineering.*
WELDON THOMPSON ELLIS, B.E., *Instructor in Machine Design and Steam Laboratory.*
LEON FRANKLIN WILLIAMS, A.B., A.M., Ph.D., *Instructor in Chemistry.*
HERBERT NATHANIEL STEED, *Instructor in Weaving and Designing.*
JAMES CLARENCE TEMPLE, B.Agr., *Instructor in Bacteriology.*
ARTHUR JOHN WILSON, B.S., *Assistant in Chemistry.*
FRED. BARNETT WHEELER, *Instructor in Forge.*
THOMAS DOTTERER EASON, *Laboratory Assistant in Botany.*

Other Officers

- EDWIN BENTLEY OWEN, B.S., *Registrar.*
ARTHUR FINN BOWEN, *Bursar.*
BENJAMIN SMITH SKINNER, *Farm Superintendent.*
JAMES OLIVER LOFTIN, *Steward.*
HENRY MCKEE TUCKER, M.D., *Physician.*
Mrs. DAISY LEWIS, *Matron.*
Miss KATHERINE FORT, *Stenographer.*
Miss ELSIE LANIER STOCKARD, *Librarian.*

Class Poem

I.

Together we've gathered, from near and far,
Bound in one tie—striving for one grand star.

II.

One year has past; the tie is closer drawn;
In our new life another day has dawned.

Many friends we have won in every sphere—
No longer ebb or flow of tide we fear.

III.

Frivolities of verdant men we forsake,
For grander prizes we now see at stake.

Difficult problems we once feared to meet
Are gone, and new zeal came with their defeat.

Three short blissful years have too swiftly flown,—
We sadly submit: to manhood we've grown.

IV.

Are we dreaming? Is this the goal we sought?
Ah! so easy has it come; yet we fought.

Four years we've shared each other's sorrows—joys,
But life's battle has come, and we must part, boys.

Fellows, remember this your college home,
And dream, often, of each other where'ere you roam.

New goals we see! We close our college gate,—
Farewell, we've gone—Nineteen-hundred-and-eight.

CLASS POET.

Senior Class History

SOME four years ago there arrived at this College a band of young men—boys, I should say,—gathered together from all parts of the State, seeking the advantages of a technical education. A smile comes over the faces of all of us when we think of the first time we placed foot on A. and M. soil and marched up to the Main Building to the inspiring notes of the Freshman March. Tremblingly, we stood before the austere presence of Captain Phelps and were assigned to Bloody Fourth, or "Freshman's Hang-Out." Before night-fall many of us began to get homesick and to wonder if this was the realization of all our glorious dreams of college life. But we had not long to pine thus, for the kind-hearted Sophs., who knew just how we felt, called on us all that night and made us feel at home. During the next few weeks we were invited out almost every night to dances and musicales given in our honor in Pullen Park. About the first of October we effected a permanent class organization and began to feel that strength that comes from unity. Although very few of us had ever seen a football game before coming to college, the class entered the race for the football cup, and playing as if we had done it all our lives we made it an uncomfortably close game for the Juniors. But the crowning glory of the Freshman year was the winning of the baseball cup. To the great astonishment of the Sophs., who after beating the Juniors considered themselves invincible, we easily won the game 6-2, thus laying the foundation for '08's enviable athletic record.

But passing on to the more glorious subject of being a Soph. It was with a feeling of lordly supremacy and glorious elation that we first traversed the campus as Sophomores, viewing with disdain the counterparts of our former selves, the meek and lowly Freshmen. Remembering the treatment we received from '07, we decided to surpass them in hospitality, and instead of one visit a night we sometimes made two or three.

If I may be pardoned for making a slight digression, I will say that the world owes the Soph. a debt that it can never fully repay. He, realizing the incompleteness of the Freshman course, endeavors, at the risk of criticism and persecution, not to mention loss of time from studies, to impart to the Freshman that polish (no pun intended) and culture necessary to make a well-rounded college man. I would suggest to all college presidents a change of curriculum which will prevent any further imposition on this most obliging set of men.

During this year we furnished a large number of men for the various Varsity teams, besides breaking a college record in winning, a second time, the class championship in baseball.

Entering school in our Junior year, the class began to experience the sense of fellowship born of long association together, and to feel more than ever the binding force of college spirit. Although, from various causes, our ranks had been greatly thinned, those remaining seemed to draw nearer together and form those close friendships which only grow stronger as the years pass. This year, our football team, which had all the time been gaining in strength, was an easy winner of the football cup. After the game the team was the guest of the class at a

banquet at Giersch's, which was greatly enjoyed by all—by some even to the extent of causing animated discussions as to the true position of the North Star.

Seniors!—what a magic word. But, oh! the hollowness of it. For three years we have looked on with wonder at the Senior and his doings and have longed for the time to come when we should be "IT." But it seemed that nothing out of the ordinary happened when we registered, and the world seemed to take very little notice of the important affair, and we are gradually coming to the conclusion that Seniors are only students with a few more privileges and a lot more work than other students. And dignity! The supply of that seemed to have given out before we got to our share, for from Kueffner up we couldn't be dignified if we tried, and one Professor has called us the biggest set of "kids" on the hill.

At the beginning of the session, Dr. Winston called a meeting of the class and outlined to us his plans and policies for the student government during the year. He caused the Senior privates much dismay by announcing that the hitherto forgotten rules concerning drill and chapel would be enforced on them. In the course of his address he spoke of the evils of hazing, and asked that the class take some action in regard to this matter. In a class meeting held after the Doctor's address, his suggestions were considered and acted upon, and as a result, hazing has been reduced to a negligible minimum.

As another evidence of the interest of the class in the welfare of the College, there is before it now the question of establishing the honor system in the College, thus placing it in line with the leading colleges and universities of the country.

We were very much saddened by the death, in our midst, of Mr. J. A. Porter, of the Junior class, who entered school with us and who had many warm friends among the class.

All of us are proud of A. and M.'s record in football this year, but none are prouder than the Senior class, who were represented on the team by Stroud, Beebe and Von Glahn, men who hold foremost places in Southern athletic circles.

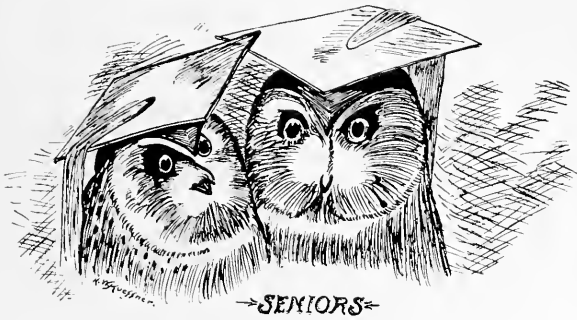

As an indication of our knowledge, I may say that more of our class will make honors this year than from any other Senior class. In addition to this, the average of the class is much higher than ever before.

But the time is drawing near for us to leave. Every day reminds us of the fact. Now it is photographs, now commencement speeches, and NOW conditions. I know I voice the sentiment of the class in saying that as I look back over the four years spent at this College, I can but dread the time when we shall have to part, the class forever, its members having only the hopes of occasional meetings. In this place we have found a second home, and the friendships formed are in many cases stronger than those of the home town. Many of us have "sisters" here in Raleigh, to part from whom will almost break our hearts. As Freshmen we have suffered together, and as Seniors we have sported together, until it seems that we just can't do without each other.

But an end to such doleful philosophy. We have received an education and the world is calling on us as men to come out and take our places among its laborers. There are farms to be tilled, railroads to be built, and electrical power to be developed, and we are called on to do our part. So let us not repine, but look forward to the day when we shall go out into the world as workers and shall begin to become factors in the development of our State and Nation.

In conclusion, let us say with Tiny Tim, "God bless us all."

HISTORIAN.

"Talking little, thinking much,
Planning good and wickedness."

JOHN C. APP, CHARLESTON, W. VA.
Chemistry.

At W. V. U.; Orchestra; Glee Club Drum Major; Chief Musician; 1st Lieut.—Staff; Cadet Officers Club.

Height 5 ft. 9 in. Weight 130 lbs. Age 23 years.

From the coal fields of West Virginia comes this lad, with a name that is characteristic of his life, "Apt." He has distinguished himself by butting into the Senior Class and by his discoveries in chemistry. "Baron" is the pride of Professor Withers's heart, for there are great things in him.

"Oh! why should the spirit of mortal be
proud."

FRANK OSCAR BALDWIN,
TAZEWELL, VA.

Chemistry.

Senior private.

Height 5 ft. 10 in. Weight 142 lbs. Age 21 years.

Baldwin is a chemist by profession and a clam by occupation. He seems cold, haughty and reserved, but such is not the case, because when he opens up his heart to you he has the soothing effect of a hot-water bag. He has a soft pianissimo voice, which he seldom uses, but when he does separate himself from his vocabulary, wisdom flows forth. He has recently devised a method of using alcohol for street lighting purposes, which he will soon put in operation in Raleigh. This will be a great boon to the citizens and students, because when they suffer from thirst all they will have to do is to arm themselves with a can-opener, a straw, a pair of pole-climbers, then go on a still hunt for a lamp-post.

"Pygmies are pygmies still, though perched
on Alps."

GEORGE FRANCIS BASON, II. K. A.,
CHARLOTTE, N. C.

Electrical Engineering.

Corp. '05-'06; 1st Sergt. Band '06-'07; Band
Instructor '06-'07; Capt. Band '07 (resigned);
German Club.

Height 5 ft. 5 in. Weight 120 lbs. Age 20
years.

"Fuzzy" is a born musician; give him any-
thing with strings or keys and he is happy. He
even extends his fiddling ability to electric wires,
drawing music from them with the pliers. His
delight is to show his musical talent at the
Baptist University.

"Then he will talk, ye gods, how he will talk."

JOHN LELAND BECTON,

GOLDSBORO, N. C.

Civil Engineering.

Entered Junior Class; Bus. Mgr. Agromeck;
Inter-Society Debate '07-'08; Member Pullen
Lit. Soc., Civil Engineering Soc., German Club,
and Saturday Evening Banquet Club; Cham-
pion Class Football Team '06; Pres. Tennis
Club '07; Varsity Tennis Team '07; Treas.
"Royal Sons of Rest"; Y. M. C. A.; Senior Pri-
vate.

Height 6 ft. 1 in. Weight 175 lbs. Age 22
years.

Becton has a double-acting tongue. It works
both ways and always. He talks about any-
thing and everything, especially if it is none
of his business. He intended to be a civil engi-
neer, but the graphophone people found out that
he could talk a book agent of the feminine sort
to a standstill. His first job will be making
spiels for Edison records. "Bec" is all right,
but he talks TOO much.

"Health that mocked the doctor's rules,
Knowledge never learned of schools."

HARWOOD BEEBE, S. N.,
BALTIMORE, MD.

Civil Engineering.

Varsity Football Team '02, '05, '06, and '07;
Chaplain Pullen Lit. Soc. '02; Vice-Pres. Ger-
man Club '07; Pres. German Club '08; Scrub
Baseball Team, '03; Tennis Club; Senior Pri-
vate.

Height 6 ft. 1 in. Weight 195 lbs. Age 22
years.

Beebe has taken a four-year course in mental
science, paying special attention to auto-hypno-
sis. His labors have been crowned with great
success. In a moment he can place himself in
a cataleptic state. This he usually does at the
first of every hour, and no art is great enough
to arouse him till the period is ended.

"All his faults are such that one loves him
still the better for them."

WILLIAM LAMAR BLACK,
MOORESVILLE, N. C.

Electrical Engineering.

Class Football Team '04, '05; Capt. Class
Football Team '06; Pres. Class '05-'06; Senior
Private; Pres. Athletic Asso.; Agrimeek Edi-
tor; Saturday Evening Banquet Club.

Height 5 ft. 9½ in. Weight 148 lbs. Age
22 years.

"Bill" has hung around for four years and
hasn't done anything out of the ordinary yet.
If he ever went calling no one caught him at it.
His own room-mate can't tell a yarn on him.

"Honor maintaining,
Meanness disdaining,
Still entertaining."

ASA GRAY BOYNTON,

BILTMORE, N. C.

Civil Engineering.

Capt. "B" Co. '07-'08; Glee Club '07-'08;
Pres. Class '06-'07; 1st Sergt. "B" Co. '06-'07;
Class Baseball Team '06, '07; Chief Marshal
Commencement '07; Civil Engineering Soc.;
Corp. '05-'06; Mgr. Class Football Team '05;
Class Football Team '04; Agromeck Editor.

Height 5 ft. 11 in. Weight 156 lbs. Age 20
years.

Our lad from the wild west thinks every day
is Sunday and dresses himself accordingly;
holding himself always ready for any kind of
flirtation. Indeed, this is his regular business,
for his spacious bosom conceals a heart large
enough to love all of Peace Institute.

"His eyes are homes of silent prayer."

FRANK HAMILTON BROWN,

CULLOWHEE, N. C.

Agriculture.

Entered Sophomore Class; 1st Lieut. "C" Co.
'07-'08; Sergt. "B" Co. '06-'07; Corp. "B" Co.
'06; Chairman Y. M. C. A. Membership Com.
'07; Treas. Y. M. C. A. '07-'08; Secy. Rural
Science Club '06; Secy. Biol. Club '06-'07; Pres.
Biol. Club '07-'08; Secy. Biog. Soc. '07-'08;

"Intercollegian" '07-'08; Bus. Mgr. "Handbook"
'07; Editor "N. C. Student Farmer" '07-'08.

Height 5 ft. 11½ inches. Weight 150 lbs.
Age 25 years.

Here is the Grandpa of our bunch, with a
head full of horse sense, and only studies to
divert his mind from worthless things. Stands
pat on his opinion, and will some day revolution-
ize the farming industry of Jackson County
if he doesn't find himself too busily engaged in
scientific research.

"Words are like leaves; and where they most
abound
Much fruit of sense beneath is rarely found."

JOHN HARVEY BRYAN,

GOLDSBORO, N. C.

Mechanical Engineering.

Entered '05; Senior Private; Tennis Club;
Glee Club '08; Saturday Evening Banquet Club
'07-'08; Pres. Mech. Soc. '08; Pres. P. P. M.

Height 5 ft. 11½ in. Weight 130 lbs. Age
19 years.

Don't let the appearance of this long, lank
lad deceive you, for he has an appetite that
would shame a self-respecting ostrich. Don't
ask him why he can't eat blackberry pie. It is
well known that he is the smartest young man
in the State, for one of North Carolina's gov-
ernors has said so.

"Grief hath changed me,
And careful hours, with Time's deformed hand
Hath written strange defeatures on my face."

WILLIAM BRYANT BURGESS,

Rocky Mount, N. C.

Electrical Engineering.

Y. M. C. A.; E. E. Soc. '05-'06; Class Foot-
ball Team '04 and '06; Class Poet '06-'07;
Sergt. '06-'07; 2d Lieut. "A" Co. '07-'08.

Height 5 ft. 8 in. Weight 160 lbs. Age 23
years.

Burgess is a manipulator of the monkey-
wrench and pliers. He has a decided liking for
strong cigars, which he uses whenever he wants
to locate the North Star. When perched on
top of a light pole his resemblance to a marble
can not be denied.

"He would take hearts and break them, this man."

LEWELLYN HILL COUCH, K. S.,
LEXINGTON, N. C.

Electrical Engineering.

Corp. '05-'06; Commencement Marshal '06; Capt. Class Football Team '05; Scrub Baseball Team '07; Class Treas. '05-'06 and Vice-Pres. '06-'07; Asst. Mgr. Football Team '06; Mgr. same '07; P. L. S.; E. E. Soc.; German Club; Marshal Triangular Debate '05; Class Football Team '06; Sergt. '06-'07; Agromeck Editor; Senior Private.

Height 5 ft. 9 in. Weight 150 lbs. Age 21 years.

Couch does not know why he has never yet been President of the United States. Perhaps one reason is that he has made it his business to keep the path to St. Mary's warm. From the way he has politized for offices and won them, there can be not doubt that if he ever really wants the presidency, he will find many willing supporters.

"This fellow's wise enough to play the fool."

ALVIN DEANS DUPREE, S. Φ. E.,
GREENVILLE, N. C.

Civil Engineering.

Civil Engineering Soc.; Class Baseball Team '07; Class Football Team '05; Corp. '05-'06; Luminary Club.

Height 5 ft. 10 in. Weight 160 lbs. Age 20 years.

Our friend tried to grow a moustache, but failed miserably. His mitiving efforts were rewarded by a sparse growth of dark-colored down. Since he has set his heart upon this, we sincerely hope he will have better success next time, although a goatee would be more becoming.

"What shall I do to be forever known
And make the age to come my own?"

RAYMOND ROWE EAGLE,

STATESVILLE, N. C.

Civil Engineering.

Major Battalion '07-'08; Agromeck Editor; German Club; Sergt.-Major '06-'07; Color Sergt. '06; Civil Engineering Society; Capt. Class Baseball Team '07; Corp. '05-'06; Class Baseball Team '05 and '06; Class Football Team '06 and '07; Honor Roll '04-'05, '05-'06, '06-'07.

Height 6 ft. Weight 175 lbs. Age 20 years.

When this young man first came among us, naturally the first handle that we hitched to his name was "Bird." He is still a bird, but an eagle no more. He is a pointer pigeon. If you want to see him point, call him "Major." During the last year he has demonstrated his engineering ability as the "Bughouse" Surveyor.

"O man of silent mood."

MINNIE LUTHER EAGLE,

DELMAR, S. C.

Agriculture.

Marshal Oratorical Contest '05; Honors in Scholarship '05-'06, '06-'07; Secy. Biol. Club; Vice-Pres. Rural Science Club; Treas. L. L. S.; Editor "Agricultural Education" '05-'06; Vice-Pres. Biol. Club; Cor. Secy. Y. M. C. A.; Editor Handbook; Biag. Soc.; Sergt. '06-'07; Pres. Rural Science Club; Biag. Soc.; 1st Lieut. "D" Co.; Editor-in-Chief "Intercongregan"; Editor-in-Chief "The N. C. Student Farmer"; Inspector; Pres. "Country Gentlemen."

Height 5 ft. 11 in. Weight 170 lbs. Age 25 years.

"Euka" Eagle—"Sand Fiddler"—editor of some half dozen periodicals, is a dead-gauche sport; takes great pride in telling his readers how he is going to revolutionize scientific agriculture in the Palmetto State by the establishment of model farms, and thus gain for himself far-reaching fame which will in the course of six short years land him safely in the House of Representatives—the zenith of his glory.

"I had rather have a fool to make me merry
Than experience to make me sad."

ISAAC HERBERT FARMER,

WILSON, N. C.

Civil Engineering.

Class Football Team '04 and '05; Class Baseball Team '05; Varsity Baseball Team '06 and '07; Scrub Football Team '06; Coach Class Football Team '06; Tennis Club '07-'08; Vice-Pres. Senior Class; P. L. C.

Height 6 ft. Weight 165 lbs. Age 21 years.

Here is "Kibo" from the pickle boat. He speaks enough Spanish to have him shot in Spain, and is always ready with a cheerful word. "I'm all to the muy bien ahora, just put it right there, old pard."

"Whose armor is his honest thought,
And simple truth his utmost skill."

BENJAMIN TROY FERGUSON,

KIMBOLTON, N. C.

Agriculture.

Baseball Team '05 and '06; German Club;
Senior Private.

Height 6 ft. 1 in. Weight 155 lbs. Age 21
years.

"Dock" knows all about refrigeration and
ice-making. Indeed, he has given some several
cold shoulders. He never cared for farming,
although on one occasion he carried all the
rocks out of a West Raleigh potato field.

"He has good abilities, a genial temper, and
no vices."

PERCY LEIGH GAINNEY,
FAYETTEVILLE, N. C.
Agriculture.

Editor-in-Chief "Red and White"; Editor
"Agromock"; Editor "Student Farmer"; 2d
Lieut. "D" Co.; Class Treas. '07; Class Poet '08;
Secy. L. L. Soc. '07; Critic L. L. S. '08; Bus.
Mgr. Handbook '07; Treas. Rural Science Club
'06-'07; Class Football Team '05 and '07; Class
Baseball Team '06 and '07; Chr'm. Devotion
Com. Y. M. C. A.; Biol. Club; "Country Gen-
tleman"; Biog. Soc.; Glee Club '05, '06, '07
and '08.

Height 6 ft. Weight 150 lbs. Age 21 years.

Mr. Gainney is a young journalist of rare
inability. When "Pie" was first elected Editor-
in-Chief of the "Red and White," it was pre-
dicted that the magazine would be a "Bugolo-
gist Journal." However, the chief fault has
been "Spring Fever."

Why do we call him "Pie"? Why, he never
eats less than four.

"Deep versed in literary books
And shallow in himself."

JUNIUS TALMAGE GARDNER,

SHELBY, N. C.

Civil Engineering.

Senior Private; Class Historian '04-'05, '05-'06, '06-'07, '07-'08; Y. M. C. A. Delegate Bible Study Conference; Class Leader '07-'08; Pullen Literary Society Librarian '04-'05, Secretary '05-'06; Vice-Pres. '06-'07; Critic '07-'08; Marshal Triangular Debate '05; Civil Eng. Soc. Librarian '07-'08; Exchange Editor "Red and White"; Saturday Evening Banquet Club.

Height 5 ft, 11½ in. Weight 130 lbs. Age 21 years.

"Major"—yes, that is his name. This name has stuck ever since he put in his commanding appearance four long years ago. Although it is possible, but not very probable, that he will advance any theories on calculus, or command any body of troops, yet he may turn some light on Shakespeare.

"What care I when I can lie and rest,
Kill time and take life at its very best."

SETH MANN GIBBS,

MIDDLETOWN, N. C.

Capt. and Quartermaster '07-'08; German Club '08; Color Sergt. '06-'07; Vice-Pres. Civil Engineering Society '07; Memoer Royal Sons of Rest; Member B. W. C.

Height 5 ft, 11¾ in. Weight 144 lbs. Age 22 years.

During his five years abode at A. and M. Punk has taken part of four courses and hopes to graduate in Civil Engineering if he doesn't change to Agriculture before May. Habitually carries a six-inch grin set at half-cock. His voice is at a minimum except under certain specific circumstances when he is out to exhibit his graceful figure and the sparkling brilliance of his military regalia; but for all of this he is the best-hearted fellow on the hill.

"I see the right, and approve it, too;
Condemn the wrong, and yet the wrong pursue."

MOSES HENRY GOLD,

BEAUFORT, N. C.

Civil Engineering.

Corporal '05-'06; Sergt. '06-'07; Senior Private; Civil Engineering Society; Tennis Club; Thalerian German Club.

Moses has the luxurious hirsute growth of a violin virtuoso, but as yet the only music he has made has been chin music. This he can do in three languages, any one of which resembles the spluttering sound of a soda fountain.

"And still they gazed and still the wonder grew,
That one small head could carry all he knew."

MAURICE M. GLASSER.

Electrical Engineering.

Senior Private; Saturday Evening Banquet Club.

Height 5 ft. 3 in. Weight 120 lbs. Age 20 years.

South Carolina's son is well informed on the lore and unwritten laws of the Carolinas, using this to great advantage in his speeches. His style of delivery is splendid, magnificent, grandiloquent, making him an opponent to be feared in any oratorical contest.

"They never taste who always drink,
They always talk who never think."

JOHN DAVID GRADY, A. Z.,

ALBERTSON, N. C.

Agriculture.

Height 5 ft. 10 $\frac{1}{4}$ in. Weight 145 lbs. Age 19 years.

"Pert," alias "Jimmie," is always ready for a good time. He entertains his friends with the piccolo and jews-harp. Although he generally has good luck, he believes himself to be a Jonah. You will always find him at St. Mary's Chapel at five-thirty Sunday afternoon.

"Snaps chord of manhood's tenser strain,
To-day I will be a boy again."

GORDON HARRIS, S. N.,

RALEIGH, N. C.

Electrical Engineering.

Varsity Baseball Team '05, '06 and '07; Varsity Football Team '06; German Club; Senior Private.

Height 5 ft. 9 in. Weight 150 lbs. Age 22 years.

He comes out to the College once or twice a year to make some athletic team. No one has ever accused him of studying anything but deviltry and the art of using a bean-shooter.

That's "Pap."

"I am the very pink of courtesy."

MAURICE HENDRICK,

SHELBY, N. C.

Textile.

Entered '05; Treas. P. L. Society '05; Capt. Class Baseball Team '06; Marshal Declamatory Contest '06; Sec. P. L. Society '06, Vice-Pres. '07, Critic '07, Pres. '08; Sec. Triangular Debate '07; Corp. '06; Sergt. '07; Sec. Athletic Assn. '07; Sec. Treas. Athletic Assn. '08; Inter-Society Debate '08; Saturday Evening Banquet Club; German Club; Textile Society.

Height 5 ft. 11 in. Weight 154 lbs. Age 21 years.

His room is always perfumed with the sweet odor of cheroots which he sells as "three-fers" to outsiders, but as nickle cigars to his friends. Motto: If you don't make money on your friends you won't on your enemies. How does "Squire" keep his hair so slick? Why, he carries a comb and brush in his pocket.

"For him there was no intermediate stage,
From babyhood up to straight-laced middle
age."

HERBERT WILLIAM KUEFFNER,

DURHAM, N. C.

Civil Engineering.

2d Lieut. Co. E '08; Class Prophet; Pres. Pullen Literary Society '08; Asst. Bus. Mgr. "Agromeck" '08; Mgr. and Treasurer of Glee Club '08; Comic Editor "Red and White" '08; 2d Tenor Glee Club '08; Member Royal Sons of Rest; Sat. Eve. Banquet Club; V-Pres. C. E. Society '07; Sec. Tennis Club '07; Pullen Literary Society, V-Pres., '07; Censor '06; Treasurer '06; Sec. '05; Librarian '05; Honors in Scholarship '05-'06-'07; Honors for Punctuality '04-'05.

Height 5 ft. 10 in. Weight 125 lbs. Age 19 years.

When he raises his melodious voice all the cats in the neighborhood immediately take their departure. Experiments have shown that he will make a good-looking girl, the only objection being that he is afraid of calculus instead of rats and mice.

"He walked as though he were stirring lemonade with himself."

CLAUDE MILTON LAMBE,

DURHAM, N. C.

Civil Engineering.

Senior Private: C. E. Soc.; P. L. Soc.; Librarian P. L. Soc. '06; Tennis Club; Athletic Asso.; Saturday Evening Banquet Club.

Height 5 ft. 10 in. Weight 140 lbs. Age 22 years.

This queer specimen of humanity has to be studied first and then handled with care. If his fur is rubbed the wrong way, he is liable to explode like dynamite. Would make a fancy roldman if ever attacked with insomnia. If he ever falls in love he will be like a snow-flake falling in a hot place.

"An idler is a watch that wants both hands,
As useless if it goes as if it stands."

BENJAMIN BUSSEY LATTIMORE,

K. A.,

SHELBY, N. C.

Civil Engineering.

Class Football Team '05 and '06; Scrub Baseball Team '05, '06 and '07; Sub-Varsity Football Team '07; German Club; Senior Private.

Height 5 ft. 10 in. Weight 165 lbs. Age 22 years.

Bussey is of all things economical. He believes in saving labor and brains. When Dr. Winston put up his examination, he said it would be graded according to the number of sheets one handed in: one page, excellent; two, fair; three, poor; four, fail; five, block-head, and six, idiot. While we were making blockheads and idiots of ourselves, Bussey handed in a blank sheet and established himself as the brainiest man in the class.

"Man may live without friends: he may live
without books:
But here's one man that can't live without
cooks."

DAVID LINDSAY, H. K. A.,

STATESVILLE, N. C.

Textile Engineering.

'07-'08—Capt. Co. "A," Pres. Tompkins Textile Society, Editor "Red and White," Pres. "Royal Sons of Rest," Member B. W. C., P. L. S. and German Club; '06-'07—1st Sergt. Co. "A"; Class Baseball Team; Honors in Scholarship and Punctuality '05-'06; Corporal; Class Baseball Team.

Height 5 ft. 9 in. Weight 150 lbs. Age 19 years.

"Beau's" hair isn't long and curly. He is a curious combination, and none of us can decide what he will be. Changed his course four times and at last found his way into the society of the textile gentlemen; but this doesn't suit him, for he has not the ear-marks of any profession, unless it is that of a satirical poet.

"It takes all sorts to make a world."

JOHN H. LITTLE.

PINETOPS, N. C.

Electrical Engineering.

Entered Junior Class '06; Y. M. C. A. Delegate '06-'07; Senior Private.

Height 5 ft. 7 in. Weight 145 lbs. Age 25 years.

This young man lives the secluded life of a monk, coming among us only occasionally. His manners are always mild and gentle. He is rather bashful, shy and modest. When he goes calling he takes notes on the conversation to keep for future reference.

"He talked much and said little."

GEORGE LAFAYETTE LYERLY,
HICKORY, N. C.

Electrical Engineering.

Senior Private; "Agromeck" Editor; Committee on Athletics '07-'08; Asst. Mgr. Baseball Team '07; Mgr. Varsity Baseball Team '08; Mgr. Class Football Team '06; Class Baseball Team '07; Sergt. '06-'07; German Club; P. L. S., Chaplain P. L. S. '07; Marshal Triangular Debate '07; Broke Club '06, '07, '08; Hon. Member Saturday Evening Banquet Club '08.

Height 5 ft. 11 in. Weight 140 lbs. Age 20 years.

This most important personage is originally from the hardwood section of North Carolina, but lately from "Medicine Square Garden" and "Cooney Island," New York. He thinks the Jamestown Exposition of the second class, and A. and M. College a Sing-Sing. We are proud of our baseball manager, as he lives for and by the Athletic Association.

"O bed, bed, bed, delicious bed,
That heaven on earth to a weary head."

CLARENCE TALMAGE MARSH,
AULANDER, N. C.

Civil Engineering.

Capt. Co. "E" '07-'08; Sergt. '06-'07; Bus. Mgr. "Red and White" '07-'08; "Agromeck" Editor; Class Baseball Team '07; Sec. R. S. R.; Honors in Scholarship and Punctuality '06-'07; Division Inspector '07-'08; Treas. T. L. S. '06-'07; Vice-Pres. T. L. S. '07; Chief Marshal Triangular Debate '07; Commencement Marshal '07; C. E. S.; Y. M. C. A.; Pres. L. L. S.

Height 5 ft. 9 in. Weight 150 lbs. Age 21 years.

Marsh likes to work. Indeed, the only thing that has troubled him all this year is the fear that he will not find work of a suitable kind. For the kind please refer to the copy of his advertisement which was recently published in the New York Herald:

"WANTED at ONCE.—Position as brakeman on an airship, or as lineman on a wireless telegraph system."

"Lofty and distant to those that loved him not,
But to those that sought him sweet as summer."

LARRY LEONIDAS McLENDON,

A. Z., WADESBORO, N. C.

Agriculture.

Senior Private; Entered Junior Class '06; Marshal Triangular Debate '07; Rural Science Club '08; Tennis Team '07-'08; Saturday Evening Banquet Club; Country Gentlemen.

Height 6 ft. Weight 150 lbs. Age 22 years. "Sorrel-Top Mack" strode into A. and M. in the fall of '06, after having taken a special course at Wake Forest in lady-killing, and since coming here he spends most of his time loafing at B. U. W. or carrying on a voluminous correspondence with the Presbyterian College and Wadesboro, thus hoping to become proficient in his chosen avocation.

"The Devil was piqued such saintship to behold,
And longed to tempt him, like good Job of old."

DAVID JOHN MIDDLETON,

WARSAW, N. C.

Agriculture.

Marshal Senior Contest '05; Vice-Pres. L. L. S. '07; Marshal Triangular Debate '07; Chairman Y. M. C. A. Social Com. '06-'07, and Bible Com. '07-'08; College Florist three years; Country Gentleman.

Height 5 ft. 9½ in. Weight 160 lbs. Age 24 years.

Duplin's most distinguished son, "Johnny" Middleton, of Warsaw, a specialist along veterinary lines, has astonished eastern North Carolina with the demonstration of the pomological value of J. Van Lindley's fruit trees, and is about to supercede "Uncle Remus" in the professorship of plant breeding.

"The man who stands with arms akimbo set,
Until occasion tells him what to do."

BENJAMIN FRANKLIN PITTMAN,
TARBORO, N. C.

Electrical Engineering.

Scrub Football Team '04; Track Team '05;
Sec. Y. M. C. A. '05-'06; Class Football Team
'05; Y. M. C. A. Delegate '06-'07; Scrub Foot-
ball Team '07; Senior Private.

Height 5 ft. 8 in. Weight 165 lbs. Age 25
years.

Mr. Pittman takes all the physical culture
magazines and lives by their prescription. On
class he keeps an elaborate system of notes, and
puzzles his instructors with conundrums. When
questioned, his usual reply is, "I don't exactly
understand the nature of the question."

"A little round man with a little round belly,
That shook when he laughed like a bowl full
of jelly."

LAWRENCE LYON PITTMAN,
WHITAKERS, N. C.

Civil Engineering.

2d Lieut. Co. "B"; R. S. R.; Sec. '07 and
Critic '08; P. L. S.; Chief Marshal Declama-
tory Contest '07; Treas. Senior Class; Honors
for Punctuality '06-'07; Delegate Y. M. C. A.;
Convention Chapel Hill '03; C. E. Society.

Height 5 ft. 8 in. Weight 180 lbs. Age 23
years.

Pittman says that curiosity didn't kill the
cat. He must be right, for if curiosity was
fatal, "Pitt" would have died many moons ago.
However, his curiosity is mere harmless inquisi-
tiveness, which does not affect his goodness of
heart. It is this last trait which always in-
duces him to lend his friends his last red cent
when they are broke, a condition which is
chronic with most of his classmates.

"Not every one is a wit that would be."

RUBLE IRWIN POOLE,

RANDLEMAN, N. C.

Civil Engineering.

Entered Soph. Class '05; Member I. L. S., C. E. Soc.; Sec.-Treas. Randolph Club '06-'07; Y. M. C. A. Finance Com. '06-'07; Class Baseball Team '06-'07; Honors in Punctuality '06-'07; Bus. Mgr. "Intercollegian" '07-'08; Tennis Club.

Height 5 ft. 10 in. Weight 150 lbs. Age 20 years.

This young Nerry Nat has many queer notions, most of them good. Last summer when he went courting he made love to the girl's mother and sister he was friendly with her father and brother, and always carried beef-steak for the dog. This was good politics, but some one else got the girl.

"Truth hath such a face and such a mien."

HARRY ALEXANDER POWELL,

FAIR BLUFF, N. C.

Textile.

Sec. Class '04-'05; Sergt. '06-'07; 1st Lieut. Co. "B" '07-'08; Textile Society; Y. M. C. A.

Height 5 ft. 10½ in. Weight 155 lbs. Age 22 years.

This young man is very economical of his vocabulary. He never even cusses unless it is absolutely essential to his good health. "Gosh" is his pet expression for trying circumstances. Some day he hopes to be a Professor of English.

"So wise so young, they say
Do ne'er live long."

JAMES ALEXANDER POWELL,
H. K. A., RALEIGH, N. C.
Mechanical Engineering.

Senior Private; Pres. Mechanical Society '07;
Sec. P. P. B. A.

Height 5 ft. 6 in. Weight 117 lbs. Age 19
years.

In this quiet lad there is a pronounced streak of mischief. Jimmie's delight is to play practical jokes and tease "Dutchy." He is a diligent student, loving his mechanical laboratory work more than his Sunday dinner.

"For e'en though vanquished, he could argue
still."

THOMAS MILTON POYNER,
POPLAR BRANCH, N. C.
Civil Engineering.

1st Lieut. Co. "A" '07-'08; Sergt. '06-'07;
Corp. '05-'06; Class Sec. '06-'07; Class Baseball
Team '06 and '07; Class Football Team '06;
Vice-Pres. C. E. Soc.; "Agroneck" Editor;
Y. M. C. A.; Division Inspector; Saturday
Evening Banquet Club; Pres. Tennis Club.

Height 6 ft. Weight 150 lbs. Age 22 years.

Is somewhat of a punster. Patterns his wit after Professor Hill. Is very bashful and modest. He thought he loved a girl in Raleigh, but never mustered enough courage to get any nearer her than the front gate. After oscillating in front of her door for an hour and a half, he returned to his room, sadder but none the wiser.

"An honest man can speak for himself."

EDGAR ENGLISH SMITH,

GREENSBORO, N. C.

Civil Engineering.

Tennis Club '04-'05; Corp. '05-'06; Sergt. '06-'07; Honor Roll '05-'06, '06-'07; Sec. C. E. Soc. '07; Capt. Co. "D" '07-'08; "Red and White" Editor '07-'08; Editor-in-Chief "Agri-meek" '08; Royal Sons of Rest; Y. M. C. A.; B. W. C.; German Club.

Height 5 ft. 11½ in. Weight 135 lbs. Age 20 years.

The smartest, shrewdest and fastest in all his class, the only and original "Schmidtz." Has all the essential qualities of manhood from standing on the street corner flirting with pretty flossies to arguing with his professors on disputed points of psychology. Ask him why he joined the Y. M. C. A., and an angelic smile will greet you. "Do it now" is his motto; give me light is his desire. Like Diogenes, believes his mission is to find an honest man.

"True as steel."

JAMES LAWRENCE SMITH,

DUKE, N. C.

Civil Engineering.

Senior Private; Corp. '04-'05; Sergt. '05-'06; Scrub Football Team '04; Class Football Team '05; Glee Club '08; L. L. S.; Vice-Pres. Athletic Asso. '07-'08; German Club.

Height 6 ft. Weight 145 lbs. Age 25 years.

"Injun" while out on the warpath looking for excitement landed on this reservation. He decided that conditions suited his tastes and applied for admission to follow civil engineering. In June he will go west to make his fortune driving a stage coach through the treacherous Rockies.

"Although I am a pious man, I am none the less a man."

JESSE PAGE SPOON,

HARTSHORN, N. C.

Agriculture.

Biog. Soc.; Pres. Rural Science Club '08; Cor. Sec. same '07; Editor "Intercollegian" '07-'08; Editor "N. C. Student Farmer" '07-'08; Cor. Sec. Y. M. C. A. '07-'08; Rec. Sec. Y. M. C. A. '05-'06; Pres. Amance Club '07; Honor Roll '06-'07; First Prize Biol. Club '07; Vice-pres. T. L. S. '07; Marshal Debate '05; Treas. T. L. S. '04-'05; Country Gentlemen Club.

Height 5 ft. 8½ in. Weight 170 lbs. Age 25 years.

Another of the grandpa type whose face does not reveal his age. His Scotch-Irish idea of honesty will help him to win fame and honor. But he must look up on how to win a girl if he wishes to be an all-round man.

"He has a hand open as the day for melting charity."

JOHN SNIPES STROUD,

BYNUM, N. C.

Textile.

Entered Soph. Class '05; Y. M. C. A.; Sec. L. L. Soc.; Class Football Team '05; Class Baseball Team '06; Inter-Soc. Declaimer '06 and '07; Treas. Y. M. C. A. '06-'07; Vice-Pres. '06; Inter-Soc. Debate '07; Sergt. '06-'07; Vice-Pres. Athletic Asso. '07; Varsity Football Team '06 and '07; Hon. Member Saturday Evening Banquet Club; Critic L. L. Soc.; Inter-Soc. Debate '08; "Agromeck" Editor; Pres. Senior Class; Senior Private.

Height 5 ft. 11 in. Weight 187 lbs. Age 26 years.

Here is a broad-shouldered, broad-minded textile gentleman that believes the sun rises and sets in Apex. He has played well the games of athletics and fooled the faculty shamefully. Snipes is rather conceited about his good-looking face and his position as President of the '08 class.

"A parlous boy."

JAMES FENTON TOWE,

CHAPANOKE, N. C.

Electrical Engineering.

Entered Christmas '04; Class Football Team '06.

Height 5 ft. 10 in. Weight 145 lbs. Age 21 years.

Chapanoke's brilliant son came to this College with an inclination toward fancy hose and a desire to learn to dance. Since he has been with us he has kept his taste for loud socks, but he has learned with remarkable ease the art of dancing and has thus improved his otherwise disgraceful appearance.

"His noble negligencies teach
What others' toils despair to reach."

JOHN LAWRENCE VON GLAHN,

WILMINGTON, N. C.

Civil Engineering.

Entered Soph. Class '05; Capt. and Adjutant of Battalion '07-'08; 1st Sergt. Co. "D" '06-'07; Corp. '05-'06; Varsity Football Team '07; Champion Class Football Team '06; Class Football Team '05; "Agromeek" Editor; Tennis Club; C. E. Soc.; Honors in Scholarship '05-'06, '06-'07; Royal Sons of Rest.

Height 6 ft. 2 in. Weight 190 lbs. Age 20 years.

This young Hercules wandered into our midst as a Sophomore, and has ever since been head and shoulders above his class-mates in height. He is very graceful on dress parade, and very sensitive about wearing a derby hat; but he is not at all bashful with the ladies, or awkward on the gridiron.

"For all my books are a woman's looks,
And studies, her enchantments."

ROYALL, EDWARD WHITE,

AULANDER, N. C.

Civil Engineering.

Senior Private; Sergt. '06-'07; Corp. '05-'06;
Class Baseball Team '06; Tennis Club '07-'08;
C. E. Soc.; Saturday Evening Banquet Club
'07-'08; Champion Checker Player '06-'07-'08;
Theatrical Financier '07-'08; Pine Level Club
'07-'08.

Height 5 ft. 7 in. Weight 140 lbs. Age 20
years.

"Piddley" plays checkers and the guitar. He
makes more noise to the square inch than light
artillery. He has many theories as to the in-
finite and infinitesimal. He also writes bum
poetry.

"Deem me not fond, but in my warmer youth,
Ere my heart's bloom was soiled and brushed
away,
I had great dreams of mighty things to come."

JOHN C. WILLIAMS,

LUNDEN, N. C.

Height 5 ft. 11½ in. Weight 150 lbs. Age
19 years.

Jack is slow-going but sure. It may take
some time for him to do anything, but when it
is finished it doesn't have to be worked over
again. Through perseverance and his brilliant
grins Jack has at last won his way at Peace
Institute.

"Young in limbs, in judgment old."

WOODFIN BRADSHAW YARBOROUGH,
LOCUST HILL, N. C.

Electrical Engineering.

Height 6 ft. Weight 149 lbs. Age 17 years.

It is wonderful to see how A. and M. develops its young. Four years ago we found him on the campus with a wee face and baby-like voice, but these years of practical lessons in pole climbing and other electrical stunts have brought him to the stage where he can talk in a man's voice half the time.

"And sure the Eternal Master found here
His single talent well employed."

JOHN FRANKLIN ZIGLAR,
WINSTON-SALEM, N. C.

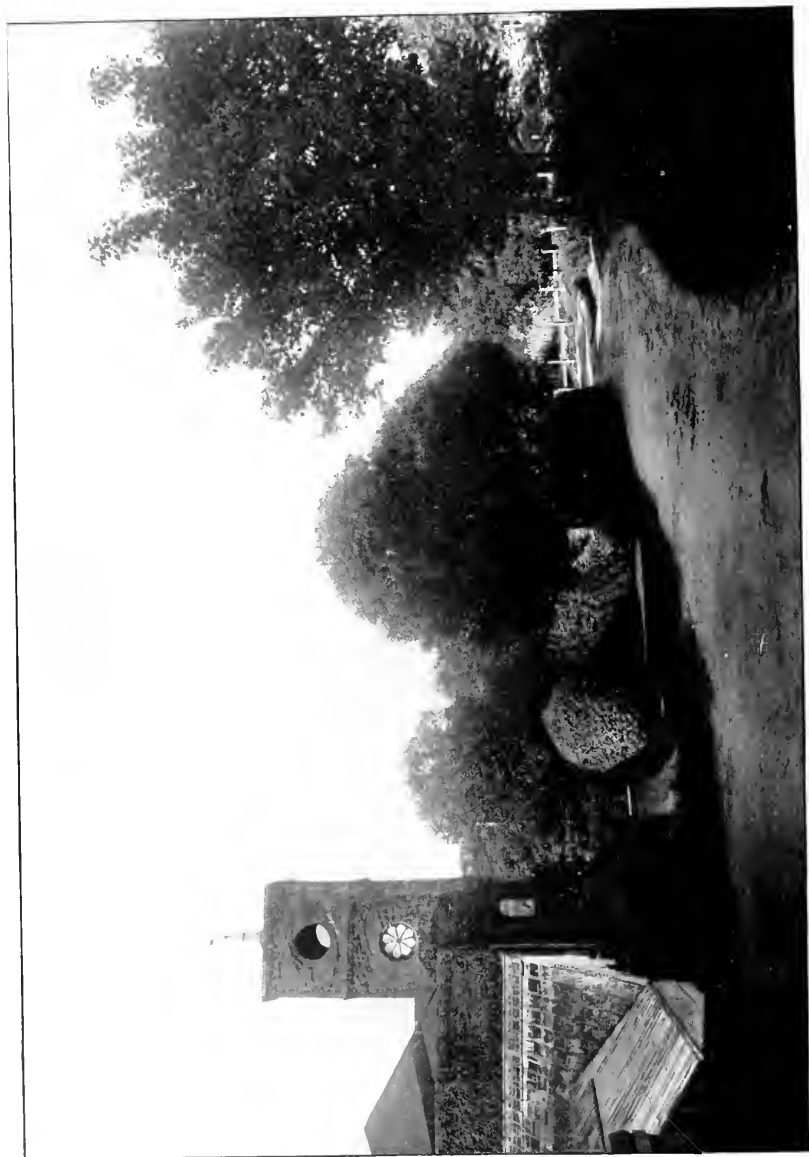

Civil Engineering.

Capt. Band '07-'08; Sec. Senior Class; C. E. Soc. '06-'07; "Red and White" Editor '07-'08; Class Football Team '06; Class Baseball Team '06; Trumps '06-'07; L. C. '06-'07.

Height 5 ft. 10 in. Weight 170 lbs. Age 21 years.

Ziglar, ordinarily known as "Buck,"—round, fat, and jolly,—takes life easy; but was handicapped in his race for a sponsor; however, he picked a winner. He is losing flesh since Raleigh went dry.

SCENE NEAR GREENHOUSE.

Class Prophecy

ANOTHER year is gone, a year which had its toils and troubles, a year of success for some and a year of failure for others; and we are about to enjoy the longed-for vacation. Thinking of vacation brings to my mind in vivid colors some of last summer's occurrences. I, like most of the rest of us, went to the Jamestown Exposition to enjoy the sights and see the progress in culture and science. One day during my stay there my attention was attracted by a handsome dark-skinned man evidently from some warmer clime. His being a foreigner was not the attraction, however, but the dreamy look in his eyes and how he seemed to eye me with special interest. Strange to say, before many days had elapsed we had become quite intimate friends and freely exchanged each others' experience and knowledge. He was from Persia, where he had made a marked success in medical lines, having made several discoveries. While in Persia deliberating how he would bring his new ideas before the scientific world, he decided to make several more tests and observations in more advanced countries. After traveling for a few years and taking note of all favorable circumstances, he came to the United States and here he said he would remain. The most prominent of his discoveries was one which might be attributed to clairvoyance by those who did not understand it or had not experienced its effects. As we all know, there are many cells in the human brain; but there was still one which no one had discovered. It having been idle for some time had to be revived by medical means. This cell, the use of which the Old Testament prophets possessed, when in use gave people the power of seeing into the future. I, like most other people, could not be convinced of this fact, and consequently the Persian gentleman and I would have lively arguments at times. This continued for some time, until one day he took the last possible step to convince me without disclosing his secret. After gaining my consent he put me in a deep sleep and this remarkable cell was busy for its first time. Of course it was quite natural for my mind to wander back to those nearest and dearest to me, among these being my classmates. Now I will endeavor to write, to the best of my memory, an account of the future of each one as it was revealed to me.

J. C. APP.—Our old friend and classmate, after toiling hard for a few years over Bunsen burners and test-tubes, decided to give up chemistry from a practical standpoint and see what the chemical world afforded in theoretical lines. Being as fortunate in getting on the good side of female institutions as in his dear old college days, he obtained the chair of chemistry at one of the leading female colleges of West Virginia. It was with great delight that the old bachelor fed the minds of his fair pupils from the store of his knowledge and feasted his eyes on their beauty.

F. O. BALDWIN.—This quiet personage, after breaking the hearts of several fair specimens of the female sex, settled down to fulfill his mission. With the assistance of a handsome inheritance he spent the remainder of his life experimenting. As a result his name is immortal on the pages of science.

G. F. BASON.—In a comfortable little home in the suburbs of Paris sits Monsieur Bason, the director of the National Orchestra de France. Electricity was too mysterious a power for his liking, but he divulges his store of knowledge before his two little sons, who think the world of their father and hope that they will be educated at their father's Alma Mater.

J. L. BECTON.—As all his classmaes thought, he was not destined to be a civil engineer, but would rather follow some profession in which he could utilize his talking abilities. He was as fortunate in after years as in his college days in leading the female sex up a blind path, and also more than one at a time. At last, however, he settled down to a profession and also selected the one girl he liked best. He fell in love with an actress, and when finally he became manager of the theatrical company he took her unto himself; but lo! and behold, she could out-talk him. Naturally, there was a divorce, but he was none the worse off, for with a little extra exertion of his slick tongue he obtained one of the sweetest specimens of humanity that ever trod this humble earth. Beauty was not her sole possession, for our dear friend did not lean back in rocking chairs and lead a high life without due cause.

H. BEEBE.—For a few years our thrifty friend was a very successful football coach. He decided that it would overtax his mind to keep in touch with all the new rules, and that no work at all would be better than two hours a day. Consequently it was not many years before he was a dead load on the threshold of his oldest son's residence. Occasionally, by way of a change, when rectangular farms are to be surveyed, he makes use of his technical knowledge before the wondering eye of the country "rube."

W. L. BLACK.—The City of Mooresville can be seen resplendent from afar off, being lighted by one of the most modern and best-equipped power plants in the State. The entire population recognizes Mr. W. L. Black as their benefactor in this line, and he is a marked exception to the rule that a man never becomes famous in his home place.

A. G. BOYNTON.—While on a camping trip in the Sapphire Country, a coy young widow from Maine became enraptured with this handsome member of the "naughty" eight class. He, seeing his chance, made well of his first opportunity, and is now in partnership with his wealthy father-in-law.

F. H. BROWN.—This is one member of our class that made good use of Dr. Winston's lectures on law, and as a result he is Mayor of Cullowhee. He finds it necessary to convene his court but once a week, therefore having much spare time to attend to his vineyard. His brand of wine is known world-wide, especially among his old Y. M. C. A. friends, being guaranteed by this trustworthy member not to intoxicate.

J. H. BRYAN.—The most prominent business establishment of the City of Goldsboro is the "Magneto Electro Photograph Co."—J. H. Bryan, proprietor. With the experience in all kinds of photography gained at college and a continued study of his electrical course, he became the inventor and perfecter of photographing entirely by electrical means. On account of his heavy weight, "Looseness" has been unable to make much headway in matrimonial affairs, but his life is a happy one.

W. B. BURGESS.—After several years of futile experimenting at finding a means of increasing in height, he decided to take a fresh start and gain renown

in other lines. He could not set aside the mysterious and attractive electricity, and as a result he is a motorman of the "Rocky Mount Shakempp Co."

L. H. COUCH.—He was most fortunate after leaving that dear old campus in May, 1898. He led a go-lucky sort of a life for the first few years, his entire salary being consumed in having a good time. By mere chance he invented an inexhaustible electric battery of great power, thus revolutionizing the electric car system and dispensing with trolleys and the third rail. This enabled him to continue life as it seemed most agreeable to his constitution; and his wife shone among the "Four Hundred."

A. D. DUPREE.—In New Mexico can be seen the shingle of A. D. Dupree over a humble little office at first, starting his career as land surveyor in this new country. He made a marked success, and as little acorns to great oaks grow, so his little office increased and developed into a great land company when Mr. Ziglar came from the Klondike with the dough.

R. R. EAGLE.—No one that knew the love "Bird" had for anything military will be surprised when it is related that he ended up in the army, and, according to last reports, was in line of promotion to Colonel of the First Tennessee Regiment. His only attempt at engineering problems was the making of a topographical map of Wolf Creek, Tennessee. There was one certain spot in this district, however, that was too attractive, and consequently, since love and duty do not always work well together, the map was a failure and was the end of his engineering career.

M. L. EARGLE.—In a cross-roads store just a mile from Leesville sits M. L. Eargle, the proprietor, on a cracker-box, from morn till night, relating to a circle of customers and loafers how to cure different diseases of plant life. Occasionally he closes his store for a half day to take a look at his farm, which is said to be one of the finest thereabouts, he having placed it in the hands of a good manager.

I. H. FARMER.—While surveying in the mountains of this State, "Ike" learned a secret that changed his entire career. He stopped engineering and established a large distillery in the western part of this State. By means of his product, called "Nectar a la Corn," he has gained notoriety and also some pocket change. At night he whistles quite a different tune with the twins occupying both knees.

B. T. FERGUSON.—In the little church at Kimbolton, each Sunday as regular as they come, can be heard the magnificent voice of Rev. B. T. Ferguson, resounding from rafter to sill, first in prayer then in sermon, and last, thank goodness, in song. He is liked very much by his little congregation, and occasionally remarks of admiration similar to the following can be heard: "He's an all-round preacher—why, he does anything from ringing that bell and passing the collection plate to singing in the choir." His spare moments are devoted to cattle raising, he having a few cows that the people of his congregation gave him for a salary. In a few years he hopes to have six cows and intends to start an up-to-date cheese factory.

W. G. FERGUSON.—"Dock" always said that he was literarily inclined, but not until his masterpiece was published could he convince his friends of this fact. His book, entitled "English as It Is Taught at College and as It Should Be Taught," shows the author's true standpoint in this respect, and as a critic he undoubtedly ranks well. Some day Addison, Ferguson and a few others will be

studied in the English class-rooms with the same delight that he used to study Chaucer, Spenser, and others.

P. L. GAINNEY.—With his oldest son managing the farm, he has a large time sitting in his big old arm-chair in a comfortable country residence in Alabama. He wears his usual broad grin from ear to ear, for while his sons raise cane in the true sense of the word, he raises Cain as a result of the vapor from a still on an unknown corner of his farm.

J. T. GARDNER.—Gardner is still the same identical fellow he always was. As editor of "The Shelby Excitement," he has become known both far and wide in Cleveland County. Like old Sir Roger de Coverly, he was once disappointed in love and would venture forth no more, and so whenever leap-year came around he would tremble in his knees.

S. M. GIBBS.—Who would ever have thought it!—"Punk" a millionaire. He stuck to his policy that he would never marry beauty by itself. This sounded as if he wouldn't marry at all, but he got on the good side of a wealthy consulting engineer, for whom he applied his vast amount of technical skill and knowledge acquired in his youth, and his beaming countenance now shines in his family circle and his hands reach into the family pocketbook for his full share.

M. M. GLASSER.—This mysterious personage carried his settled and pensive disposition into later years, remaining his only companion, for, as he always said, he liked to be in company with a sensible man. He selected that station in life which afforded much solitude and opportunities for research into the unknown depths of science. Very few ever knew where the scores of inventions in the electrical world originated, but of his crowded workshops and laboratories M. M. Glasser made another world, being only connected with his fellow man in so far as to make known any success he might have in wrenching a new property from this wonderful power, electricity.

M. H. GOLD.—Realizing that he would not do himself, his nation, or his name justice by following civil engineering, he decided to make use of his business qualities. Having had much experience in certain lines of business, and his wits being sharpened by the wise tutorship of his professor in Business Law and Political Economy, he selected that branch for which he was best fitted. Having taken a degree in Bluffing, he bought a complete set of law-books to ornament his office and in Beaufort he settled. Financial crises do not worry this shrewd business man, and frequent applications are made by others of his city to the office with the following sign: "MONEY TO LEND—M. H. GOLD."

J. D. GRADY.—The soil in the vicinity of Albertson has certainly been good to this sturdy son of the soil. For a few years he toiled hard, entirely against his nature, but at last his desires were fulfilled, and he is able to go to town on Saturday after a week of rest, fill his little brown jug, come home and have a supply of tonic for the rest of the week. Everybody works but father at that home, each of the eight children being kept occupied.

T. D. GRIMSHAW.—Back to the mountains he went. It was a matter of impossibility for him to leave those wrinkles in the earth's crust. At the age of forty, after a life of flirtation with the mountain lasses, he was taken away to a seacoast town in South Carolina as second mate to a well-to-do widow of a sea captain, she having fallen in love with him, the possessor of those resplendent locks of hair.

D. Y. HAGAN.—The Civil Division will be glad to know that at least a few remained true to their calling and benefited the world with the knowledge for which they toiled together in class-room and on field. One of the most successful of those that stuck to civil engineering is our busy friend, "Purt." As a resident engineer of the Southern Railway, he made quite a success, and after finishing the double tracking from Washington to Atlanta he settled down in Danville. Among the most prominent engineering feats of the twentieth century is the spiralized suspended bridge span across a pass in the Blue Ridge Mountains. Having devoted most of his time to the study of the spiral and also much of his time to bridges, it will be gratifying to his teachers to note that he was successful in the structure that required a thorough knowledge of both subjects.

G. HARRIS.—Although he married at an early age, to-morrow never bothered his brain, and he led a typical go-lucky sort of a life. He and a friend went into partnership in an electrical fixture supply house. The firm went bankrupt, but with a new start "Pap" did better and became the proprietor of a large supply house for wireless telegraph stations. At first he dealt in wires, but he soon found out that there was not much profit in selling wires to such customers.

M. HENDRICK.—When two great minds for business get together to begin an enterprise, there is more than likely to be success. With the tutorship of "Ooks" as to everything textile and the experience in financial lines gained from his business undertakings at college, he, in partnership with his "Old Lady," founded the great "Morning Glory Mills" at a place first known as "Nowhere," but which rapidly grew to the City of Hendrictown.

C. M. LAMBE.—The store of Lambe Bros., covering a block in the great City of Durham, stands as a monument to the toil and application to duty of C. M. Lambe and his two brothers. He started out with a firm resolution to make a first-class hydraulic engineer out of himself, and for several years he worked hard. Seeing no returns from his exertions, however, and being told by his brothers of brighter prospects with them, he flung the transit aside as he used to throw the tennis racket away whenever he failed to score an expected point, and was soon the most influential member of the firm.

B. B. LATTIMORE.—Although not a Kentuckian, he liked to be where there were beautiful women, fast horses, etc. Most of his time was devoted to the former, and not until he was entirely removed from them did he endeavor to make life different from a love story. When he sailed for the Philippines was the beginning of his career. When last heard of he was doing well, but was rather worried over the many hearts he had broken by departing.

D. LINDSAY.—The chief of the "Royal Sons of Rest" of course never believed in over-exertion, and consequently he never rose above boss spinner. By means of his inspiring lines of verse, which he continued to write even when college days were a thing of the past, he became entangled in the webs of love and was carried a victim to the hymeneal altar.

J. H. LITTLE.—In the country schoolhouse at Pinetops can daily be heard the instructive and authoritative voice of J. H. Little, the schoolmaster. He has a little electrical workshop, to which he devotes most of his time, and by the approval of all the families concerned, he holds a class in which he teaches the choicest sons of the soil some of the rudiments of electricity. This being something new to those innocent and simple-minded farmers, he made quite a reputa-

tion and could ask an increase in salary, thus affording himself better means of increasing his knowledge on certain subjects of vital importance to the conscientious enlightenment of his entrusted ones.

G. L. LYERLY.—“Governor,” after leaving college, made an extended study of the celestial bodies. After ten years of constant application to books and instruments, he was at last able to locate the North Star without very much trouble, and we are glad to say that although occasionally under the same disadvantages as in his youthful days, it is quite impossible to place him in such a predicament as he once experienced. The Lyerly Observatory is situated on the hill east of Method, and although recently erected much work has been done. His new star is called the Banquet Star, in honor of the occasion of his first attempt at finding stars.

L. L. McLENDON.—By day he stands afar off and watches his score of farm hands tilling the soil afar off, for work never got next to him. At night he pores over a small collection of law books which are essential to the thorough execution of the duties attached to the responsible position he holds, that of constable of a suburban town of Wadesboro.

C. T. MARSH.—Having observed and been in close contact for several years with a kind guardian of his own stomach, it is not strange that he, like his companion, when enough experience had been gained in the feeding of the inner man, should gain much weight. He became stout so rapidly that he gave up all hopes of following his vocation. True to his conscience, he did that which required least worry and labor on his part and established the “Marsh Sanitarium,” with the rest cure for all manner of nervous diseases, and being a living advertisement for his cure he made quite a success.

D. J. MIDDLETON.—Between the years 1910 and 1920, Y. M. C. A. work in the United States was entirely revolutionized. Having had Y. M. C. A. work at heart ever since he was old enough to understand its mission, it was his one and only purpose in life to make its work the greatest possible success. Being one of the few real ladies'-men of our class, he had had much experience with the fair sex, and fully realized what an attraction they were. By uniting Y. M. C. A. and Y. W. C. A., he became one of the leaders of the work he helped so much.

B. F. PITTMAN.—He started on life's journey to take his time and get the good out of everything. His first position was with Westinghouse, and although he did well, the rush among so many was entirely against his disposition. He settled down in a quiet town out West and the rest of the world bothered him no longer.

L. L. PITTMAN.—Of course he made the best of life and was much more fortunate than the rest of us in finding an easy way of getting around work. He is the same fellow as of yore, the same (height) lying down or standing up. For the past few years of his life he has been living easy trying to make good use of a comfortable inheritance. The only thing that bothers his brain is the honorable position of alderman. Since he is alderman of Whitakers, that city of bustle and business, he is constantly kept in a rush.

R. I. POOLE.—When his old friend White started a minstrel show, of course, even if there was nothing in it for him but bread and butter, Poole was right there with him. And you bet when these two heads got together to contrive some witticism it was soon forthcoming. He of course had a large share in the minstrel

show, but on account of his natural talent for that certain class of comedian, he was end-man. He would make strenuous efforts at disguising himself and would succeed well with one exception. Anyone that ever knew him would soon recognize him on account of his "ferry-boat" feet.

H. A. POWELL.—From knitter to superintendent does not seem as big a jump to this bashful specimen of mankind as from superintendent to whatever his expected father-in-law intends to make him. By day he watches others work and by night he works others' watches, for occasionally he becomes so enraptured with some fair one that it is necessary to regulate the timepiece.

J. A. POWELL.—Poor little Jimmie had a time at first at the machinist's trade. The tools were all too heavy for him and tools suitable to his weight worked all too slow. He, however, in his usual sunshiny way grinned and bore it all and triumphed in the end. He invented an apparatus that was as much as a human being. It could handle any tool, and by means of buttons and levers could be made to use the same in any desired manner.

T. M. POYNER.—With fine arguing abilities and a few years of devotion to the study of the fine points of law, he gained the reputation of being the ablest lawyer in Norfolk. He won every case he ever took, and when making his speech, even though he knew the case was his, he would continue to argue to show that he could not be downed. In one of his greatest cases, however, his brilliant career was somewhat dimmed by a mere slip of the tongue. In a warm argument he accidentally made use of his old expression, "you old tight-wad," and the judge got him for contempt of court.

E. E. SMITH.—He knew that it would be a pity for him to become connected with industrial enterprises since the minute details he had packed away in his head would be wasted. He therefore accepted the position as instructor at his Alma Mater and did extra fine until he fell in love, which of course divided his attention.

J. L. SMITH.—It did not take him long to convince the good people of Duke that they needed a responsible City Engineer. With a nice salary and little to do, he led a pleasant life and was quite prominent in both social and financial circles.

J. P. SPOON.—Who would ever have thought that an honest man like Spoon would ever run a dairy with well-pump attachment? He could not help becoming wealthy since, although his customers increased, his number of cows never did; but the old well near the barn could tell the tale. On Sunday this stout personage would amble down the road to the little church where he was a deacon.

J. S. STROUD.—Stroud of course could not leave his dear friend and counselor, Hendrick, and together they labored and toiled, and the outcome was the "Morning Glory Mills." He accumulated a handsome fortune and was recognized by his fellow-men as a leader and one to whom they would look for advice. Thus having gained great popularity and being wonderfully talented in speech-making, he was selected as congressman. When this honor was bestowed upon him he was still single, and consequently Apex was still the center of attraction and was frequently honored with the congressman's visit.

J. F. TOWE.—It was his only wish to become renowned among his home folks. All these desires were fulfilled when he became manager of the "Chapanoke Traction Company." He sports fine clothes and leads a high-flyer's life to

perfection. Occasionally he settles down sufficiently to write a love story for "Tip-Top Weekly."

J. L. VON GLAHN.—This conscientious and diligent toiler made himself what he is. It was no lucky strike that gained that prominent station in life for him. He made the harnessing of the water-power of North Carolina his life's work. In less than a decade after his graduation he made much progress in this line, and before many years had elapsed several canals and dams were on his list of construction.

R. E. WHITE.—The White Minstrel Show was the most exquisite and most popular attraction for several years. He, besides seeing to a large part of the business management, supervised the stage. As trick musician he made quite a reputation, and when assisted by his right-hand man, Poole, in cracking jokes there was no equal.

J. C. WILLIAMS.—With this responsible mathematician at the head of the calculating bureau of the "Phenix Bridge Construction Company," there is a certainty of no more failures in their structures on account of a miscalculation. He is as much of a ladies'-man as ever, and often he goes to work with heavy eyes from a previous night's dance.

W. B. YARBOROUGH.—He is one of the most valued foremen of the General Electric Company. He is in a very ticklish position at present, for on the success of one little invention depend wife, home and fortune.

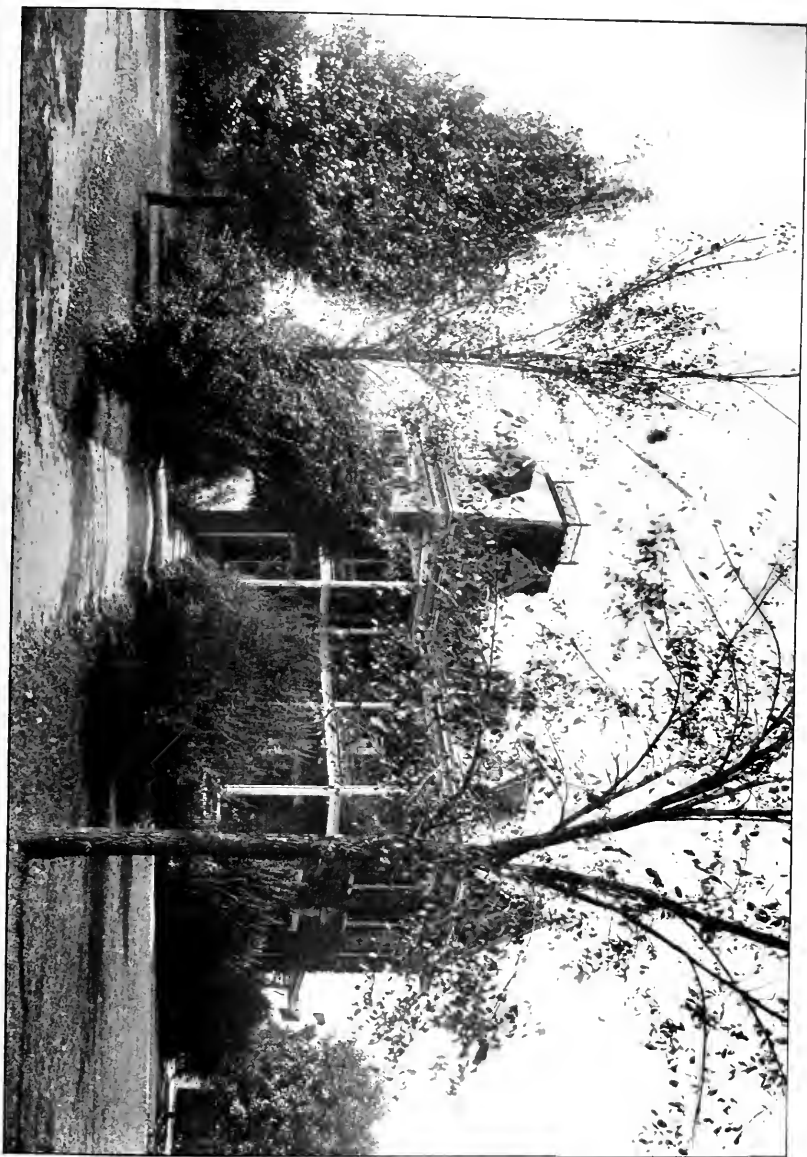

J. F. ZEIGLAR.—His first job was the construction of a coal chute at Winston. It was such a remarkable piece of work that he made a big name and the railroad for which it was built put much confidence in his abilities. His chances for a brilliant career were, in Winston, cut short, for when asked by a friend to join in a trip to Alaska his adventurous qualities were aroused, and it was not long before "Buck" was ready to travel. He ended up in Mexico as senior partner in a great land company, organized by Dup's speculative mind and backed by "Buck's" Klondike gold.

Toast

To the naughty-eight clan,
The merry band,
And its members fifty-three:
May we meet again,
On this sphere mundane,
To talk of old times in glee.

HIDDEN TREASURE.

Junior Class History

IT was a day to be long remembered, this seventh day of September. Around the campus, on the cool, green grass, beneath the shade of the old familiar trees, could be seen lazy, lounging groups of re-united friends and classmates, busy with and deeply interested in varied and interesting conversations. Some talked of home and sweetheart, some of the fallen class-mates, and others of new surroundings.

Suddenly, and without warning, there broke forth upon this peaceful scene the yell—

Wha-hoo-wha, wha-hoo-wha,
J-U-N-I, Junia.
Who-a-ray, who-a-roar,
Siss-boom. Junior.

The last of the "Naughty Boys" had returned, with ranks thinned but little, with banners still waving.

Some might ask what these "Naughty Boys" might be, but surely every one knows the Class of 1909.

The history of this class, with its trials and tribulations, expeditions and explorations, together with its achievements, is indeed an interesting one throughout, one that would perhaps fill volume after volume if the whole of it were known. But, since part of it is in absolute obscurity, and circumstances will not permit of its disclosure, I shall have to limit myself to the recounting of a few of the most noteworthy facts connected therewith.

It was in the fall of 1905 that the Class of 1909 was organized. Soon after the arrival of its members they were attacked by the Sophomores, were defeated, disfigured and disorganized. But this state of affairs was not to last long. Owen Moore was elected President, and soon after the election matters changed. By his wise counsel and marked generalship many obstacles were overcome, and before the year was half gone the Class of 1909 had won the respect of the upper classes and was said to be one of the best classes ever at A. and M.

During this first year we were represented in all branches of college life. Although we did not win any high honors in class athletics, we were represented on both varsity teams, by Thompson in football and baseball and Fox in baseball. We also had a number of men on both scrub teams.

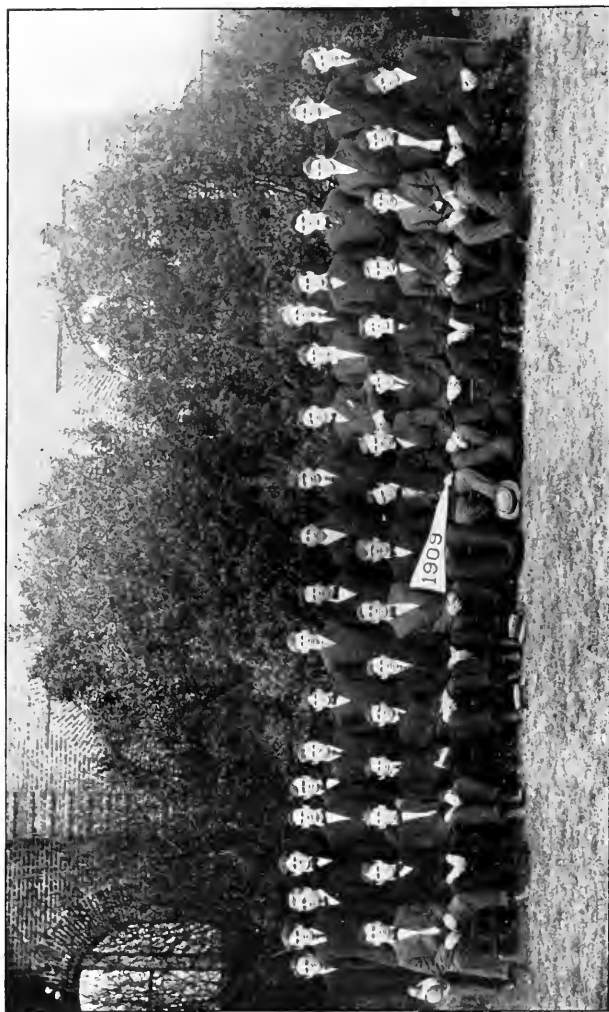

Our Sophomore year, while filled with many interesting experiences, passed away quietly. We returned with a more satisfied feeling and soon started earnestly to work upon our college career, which we felt had just begun. This year we were again well represented in athletics, having on teams Thompson, Fox and Goss. We were also more successful in class athletics, winning the baseball championship and cup.

In the spring of 1907 J. O. Sadler was elected President for our Junior year, and up until this time has served as such with the greatest fidelity. With Marshall as captain, our class football team won for us the class football cup and championship, thus putting us in possession of both cups for the year 1907.

With our Junior year but half completed, our history is indeed one of which any class would be proud. Who would not be proud of such men as Thompson, Sadler, Gray, Fox, Marshall, Goss, Long, Johnson and Thomason?

With such a list of class members, the future history of 1909 can not but be bright, and, ere many years have passed Maroon and Gray will be at the top of the ladder of success.

HISTORIAN.

JUNIOR CLASS.

Junior Class, '09

MOTTO:—Vivamus ut Discamus (Let us live and learn).

COLORS:—Maroon and Steel-Gray.

FLOWER:—Carnation.

J. O. SADLER, President.

J. W. HARRELSON, Vice-President.

J. B. CRAVEN, Secretary-Treasurer.

S. F. STEVENS, Historian.

Wha-who, wha-he,

Wha-who, wha-he,

S-O-P-H-O-M-O-R-E.

Sophomore Class Poem

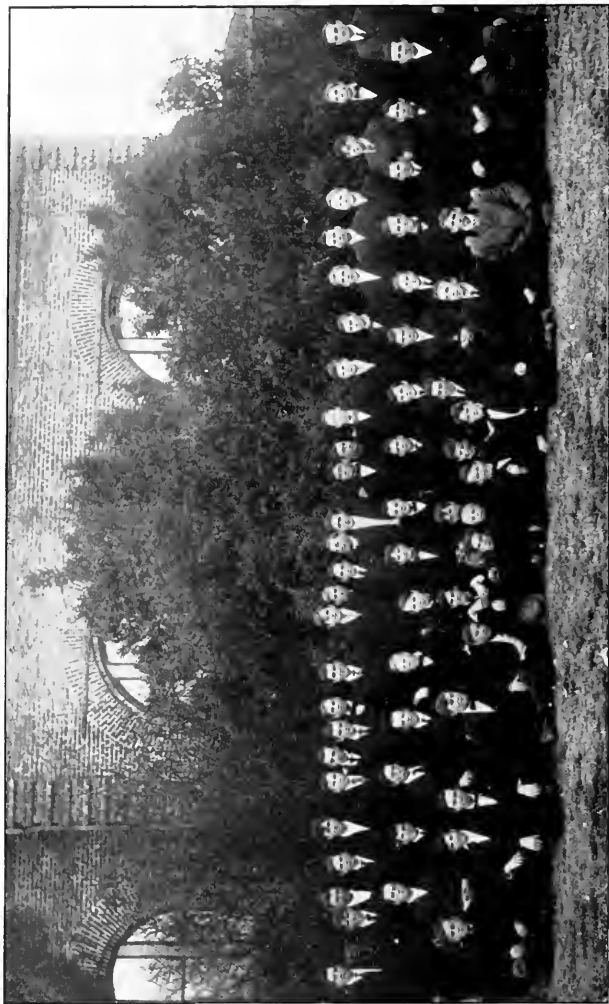

Half our college days are over,
Half the days are yet to come ;
Half the hardships yet to encounter,
Half the battles are but won.

These two years have been successful,
Failures there have been but few ;
Then let us never be forgetful,
To our motto always true.

Two more years we've yet at college ;
May they be a great success,
And our friends to us acknowledge
That we always did our best.

Fresh life was verdant, Soph. was knowing,
But those happy days are o'er ;
So in closing here is hoping
We all reach the Junior shore.

Sophomore History

SEPTEMBER the sixth saw most of our class back again at the A. and M., not as Freshmen, but as Sophomores, the rulers of the Hill. It took us some time to keep from speaking of ourselves as Freshmen, but in our acts and deeds we showed that we were true Sophomores. We began immediately to display our superiority by ordering the Freshmen around to do our bidding, and when one refused to do such, we gave him a free bath or a black massage.

All of the old men who had been elected to offices for this session came back, and as every one seemed to be satisfied with these men, we did not hold another election.

We were somewhat troubled at first on account of the Faculty's "shipping" two of our men for attempted hazing; but by some persuasion on our part the culprits were reinstated.

Our class was well represented in football, with Spencer, Bray, Wilson and Sexton on the Varsity team. The prospects are that we shall have a number of men on the baseball team; among them Sexton, Cline and Council as pitchers, and Spencer and Lassiter as fielders. Our class team made a good showing also in a hard-fought game with the Juniors, which resulted in a tie.

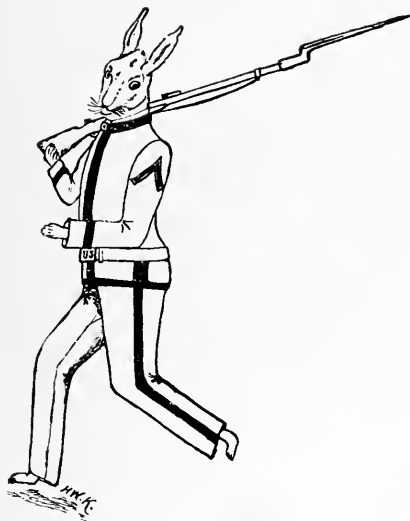

A new athletic venture, which proved the most interesting event in our history, was the fight between us and the Freshmen. Few dreamed of the impending danger when that memorable morning dawned over the College, but those things which come to us as surprises are generally the most interesting. When our challenge to the Freshmen was read out in the "Mess Hall," none of us thought that there would be any of the Freshmen out on the field; but we were badly mistaken, for the class turned out in full force. It is useless to attempt to describe that great fight, in which men fought and bled, not because they were angry, but for a principle, and that was to uphold his class and show it to be the best. It would take a historian of greater powers than mine to tell of things that took place that day; but those who carried off the broken noses and black eyes will always remember the battle as the most exciting event during their stay at college. Well, anyway we think that we came out ahead, and believe our dignity to be on as firm a foundation as ever.

We have been thinking of organizing a barbers' society among ourselves, as we have had a great deal of experience in that line during the past few months.

Whether this plan will materialize will depend entirely upon the Freshmen, who are the customers. Our success at sign painting likewise opens a new field: decoration of smoke-stacks by our " Steeple Jack " having won general admiration.

An election was held a few days before the Christmas holidays for the appointment of the Assistant Manager of the football team for the coming football year. Mr. L. P. McLendon was chosen by a large majority.

When this history goes into print our year will be only about half gone, and many of the great things we do and those we do not do will never be known to the world at large, but must always remain as a part of the private history of the boys of Nineteen Hundred and Ten,—the greatest and best class ever at the A. and M.

FRESHMAN CLASS.

Freshman History

IN the fall of '07 we marched up to the doors of A. and M. College, about one hundred strong, and although the many new and strange things made us a little nervous, we were determined to become members of the Class of 1911. We soon made the acquaintance of our friends, the Sophomores, and I fear afforded them a great deal of amusement. But as the days went by and we became more used to the ways of the College, we went to work to make a reputation for our class that we could be proud of. So far we have succeeded nobly, and those who know our class say we will continue to do so.

In the month of September we organized our class and elected Mr. R. T. Wade temporary President. In October we elected permanent officers, with Mr. Walter Lambeth as President.

We turned out one of the best football teams the College has ever produced, and succeeded in holding the Juniors down to no score in two games, although they defeated us in the third. We hope to do even better in baseball, and the prospects are in favor of this.

We are probably the only Freshman class that ever went out and met the Sophomore class in a fair open fight. Both classes were there in full attendance, and when time was called each held the other in more respect than before the fight.

There is much more I would like to say, but the task is too much for me, but in closing this history that should be so much better to do our class justice, I can only say:

Here's to the Class of 1911,
And her members brave and true;
For her white and golden colors
We will do what we can do.

And when the four short years are o'er
And her members are far apart,
We will think of our dear old class
With a love that fills our heart.

PARADE GROUND.

THE BATTALION.

The Battalion

IN the Session of 1862 our National Congress, realizing the importance and necessity of having a greater number of trained soldiers for the safety and welfare of the country in time of war, passed an act donating lands and money to establish technical colleges in all the States of the Union, provided that for and in consideration of these donations, a military department be maintained at these various institutions. The act further provides that an officer from the United States Army shall be placed at the colleges where these military departments are established for the purpose of giving instruction, both theoretical and practical, along military lines; to include Infantry Drill, Regulations, Field Service Regulations, Manual of Guard Duty, Firing Regulations for small arms, and these text-books to be supplemented by lectures on Army Administration, Organization, etc.

At present, our College is especially fortunate in having an able, efficient and highly esteemed officer as commandant,—Lieutenant J. S. E. Young, Ninth Cavalry of the United States Army. The Battalion and the whole College feel a deep sense of gratitude and appreciation towards Lieutenant Young for his untiring efforts to bring the Battalion up to the high standards set by the War Department. And the remarkable improvement in the military department here, since the beginning of his administration, two years ago, stands as proof that his efforts have not been in vain.

At the beginning of this session the Battalion was reorganized with five full companies and the band. After the assignments of the officers and non-commissioned officers to the various organizations, the most difficult and disagreeable task of the whole year,—the instruction of two hundred new men, part of whom had never seen any drilling, had to be done. However, and to the pleasure of all, the new recruits went into it with determination, and with few exceptions were unusually apt in mastering the knowledge requisite to being a soldier.

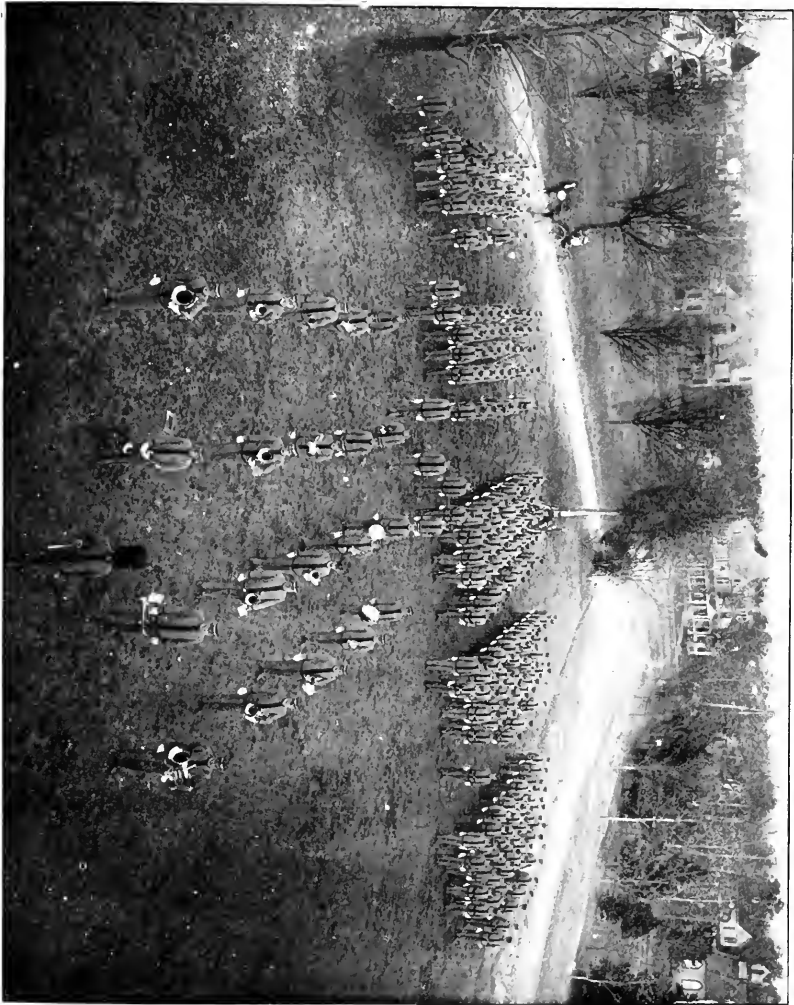

It was necessary during the first five weeks to teach the most important movements only, and attain efficiency in those with all possible dispatch, in order for the Battalion to make a creditable showing at the State Fair on October 17th. In view of the fact that the competitive drill between the five companies was to take place on this occasion, the greater part of the time was given to company drill. It was highly encouraging to note the high degree of proficiency attained by the companies in the short period of preparation. So well did each of the companies drill that the judges experienced some difficulty in deciding which would get the

prize,—a beautiful silk pennant. But it was finally decided to award it to "A" company. On this same date, the Battalion had the honor of marching in the parade at the laying of the corner-stone of the new Masonic Temple in the city. The comments on the Battalion were highly complimentary.

It is only fair to the officers and cadets to say that the condition of the Battalion now is more nearly in touch with the requirements of the War Department than ever before. At this writing we are in the midst of strenuous preparations for the annual inspection, and here's hoping that our year's work will reach a happy climax in a magnificent demonstration of military knowledge and skill before the Inspector arrives.

A Toast to All '08

1

Here's to

App, Alpha of the whole half hundred,
Along with Baldwin on "Phorney" blundered;
To "Si" Brown—"Bill" Black, both winners of fame;
Mountain scientist-sport from Mt. Mourne came,
To Beebe and J. Harvey—two extremes—
A whale and one who transmits all sunbeams,
To Bason-Beeton, musician and sport;
And "Bill" Burgess, a pole climber of note,
To Asa Boynton, in whose mind Peace reigns;
With Louie Couch, a winner of football games,
To "Mme. Dupe," Greenville's singing French brunette,
And "Spat" Dawson in AGROROCK'S duet,
To "Bird" and "Euka"—both can wield the pen;
One to Science writes—other, Wolf Creek, Tenn.
To "Ikey" Farmer, the one baseball star,—
He, "Troy" and "Dock," "4X" forever bar.
To Glasser, author of unwritten law,
And "Major," who has no physical flaw,
To "Glory," who will Pius supersede;
With "Moses," both men of religious creed,
To "Punkin" Gibbs, a soldier of great renown;
And John D., wearer of Rockefeller's crown,
To "Dorsey," laziest of the whole crew,
Also "Squire," whose girls are not very few,
To "Pap" Harris, who loves this dear old Hill;
Came in '01, will leave when he makes his will,
To "Bussey," a man with one sole desire;
Also Kuefner, whose wit none dare aspire,
To "Sheep" Lambé—he always did walk in front;
He and Little perform all walking stunts,
To "Governor," locator of all north stars,
With "Beau," whose poetry long since struck Mars,
To Marsh—sheep—*Red and White* financier—
My! that "Johnny" has ploughed many, many a steer,
To the Pittmans—size and knowledge have both,
And "Jimmy," who has yet to gain his growth,
To Powell—sure all textile men can knit,
And "Rubber-Fool" repartecial wit,
To "Buzzard," the second bird on our limb;
If he doesn't go to ——— arguing's no sin,
To "Spoon," who all of tricks doth know;
Also the Smiths—"Injun" and "Smit" the beau,
To "Snipes" Stroud, the Apex athlete conceit—
He and Von Glahn Virginia's fine did meet,
To Towe and White—chinaman-checkerman,
With "Jack"—all members of the sporting band,
To Yarborough, with whom youth still remains,
And "Buck," whose life has always been the same,
To "Pie" Gainey, deserved to tail the list,
For he's the poor ignorant poet that wrote the whole of this.

A decorative frame with ornate, symmetrical scrollwork at the top and bottom, enclosing the title text.

Departments

Agricultural Department

- CHARLES M. CONNER, B.S.A., B.S., *Professor of Agriculture.*
FRANK LINCOLN STEVENS, M.Sc., Ph.D., *Professor of Botany and Vegetable Pathology.*
GUY ALEXANDER ROBERTS, B.S., D.V.S., *Assistant Professor of Zoology and Physiology.*
JOHN MICHELS, B.S.A., M.S., *Assistant Professor of Dairying and Animal Husbandry.*
FRANK C. REIMER, M.S., *Assistant Professor of Horticulture.*
ROBERT SETH CURTIS, *Assistant Professor of Animal Husbandry.*
RALPH INGRAM SMITH, *Instructor in Zoology and Entomology.*
JOHN STRAUGHON JEFFREY, *Instructor in Poultry Husbandry.*
ALFRED HENRY THIESSEN, B.S., *Instructor in Meteorology.*
JAMES CLARENCE TEMPLE, B.Agr., *Assistant in Bacteriology.*
THOMAS DOTTERER EASON, *Laboratory Assistant in Botany.*

DECLAIMERS.

Inter-Society Debate, May, 1907

Query

What is the best economic solution of the railroad question?

LEAZAR:—Let the roads remain in the hands of private corporations, free from any government restrictions.

PULLEN:—Let private corporations and private capital own them, but let the government exercise a rigid supervision.

TENERIAN:—Let the government buy and operate them.

Debaters

LEAZAR—L. F. Carleton '07, *W. B. Truitt '07.

PULLEN—R. S. Graves '07, L. R. Tillet '07.

TENERIAN—J. P. Bivens '07, Seba Eldridge '07.

Officers

PRESIDENT—J. S. Stroud.

SECRETARY—M. Hendrick.

CHIEF MARSHAL—C. T. Marsh.

Marshals

LEAZAR—J. D. Grady '08, D. J. Middleton '08.

PULLEN—G. L. Lysterly '08, H. N. Sumner '09.

TENERIAN—L. P. McLendon '10, W. N. Sloan '09.

* Won medal

DEBATERS AND MARSHALS.

The Bi-Ag Society

On January 16, 1906, a few members of the two upper classes of the Agricultural course met at the home of Dr. F. L. Stevens, and with him began the organization of an honor society for the agricultural students. On January 23d the organization was completed and the Bi-Ag Society was formally inaugurated.

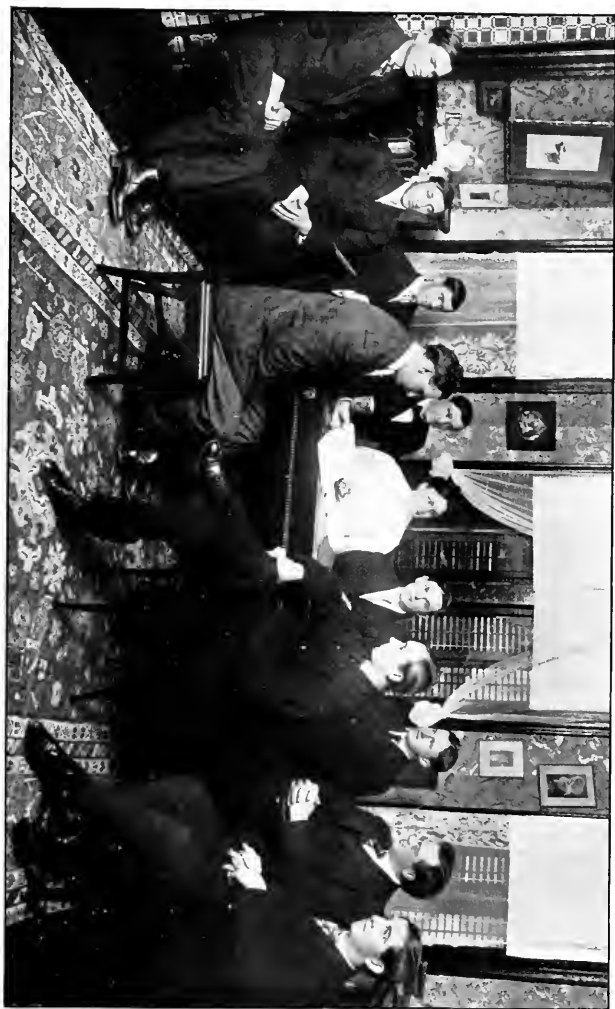

This Society has from the very beginning been a thriving organization. Its members are chosen for their high scholarship and manly character. The field of the Society is as broad as the work of the agricultural college, and as the latter grows and increases in usefulness, so will the Society. The Society gives strength to the College by developing the best there is in those students who are the leaders in the College.

The Bi-Ag Society is an institution for building men, and it gives attention to those features which tend to develop all-round men. No single thing is developed to the exclusion of others just as important. Morality, sociability, scholarship, and other such attributes of the true man, are given due place. While its members are one in aim and purpose, yet individuality is not restrained.

The desire of every Bi-Ag man is to help his fellow-member intellectually and socially, and thereby advance the Society, the College, and the State. May we ever be inspired with this noble purpose and push on to higher things, so that the students in coming years may look on the Bi-Ag Society as one to which it is a great honor to belong.

Yell

Agriculture, Horticulture, Siss Boom Bo,

A. and M. Cowpunchers, So Cow So.

COUNTRY GENTLEMEN.

“The Coquettish Quintette”

OBJECT:—To tantalize masculinity.

MOTTO:—“Get a mate.”

COLORS:—Red, Yellow, and Green.

Members

Mrs. ROZANNA RIGGSBEE EAGLE.

A dashing young(?) widow of forty summers. “She stoops to conquer.”

Miss MELINDA HENDRICK,

A breezy street sweeper, coy and bashful, with the opposite qualities in reserve.

Miss JOSANNAH LOUISIANNA BECTON,

Apparently a man-hater who has been stung, but in reality the men hate her.

Miss JANE SUKIE STROUD,

A buxom lass capable of self-support; a high-stepper and sand-sifter.

Miss HULDY WIXIE KUEFFNER,

Made a decided hit as chorus girl in a popular-price opera. Uses any old scheme to get a man.

Toast

Here's to the Coquettish Quintette,
From little blonde to big brunette;
To short, thick, thin and tall—
Here's to each one and to all.

"THE GOODFISH QUINTETTE."

Royal Sons of Rest

Biggest Bum—L. L. Pittman.

Biggest Gas-Bag—J. L. Becton.

Biggest Dead-Beat—D. Lindsay.

Biggest Loafer—C. T. Marsh.

Yawner—D. Y. Hagan.

Most Shiftless—J. L. Von Glahn.

Laziest—S. M. Gibbs.

Most Indolent—H. W. Kueffner.

Most Constant Sleeper—E. E. Smith.

Officers

Wholesale Timeslayer—D. Lindsay.

Grand Pen Puller—C. T. Marsh.

Lord High Grafter—J. L. Becton.

SONG:—"Please go 'way and let me sleep." COLORS:—Yellow and Purple.

What we have done most—Slept.

What we do most—Sleep.

What we wish to do most—Ditto.

FAVORITE DRINK:—Lemonade.

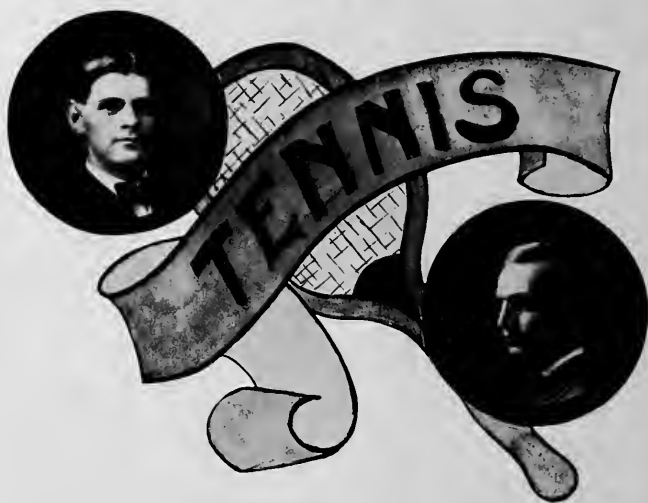

(Not a cross word in a gallon, nor a headache in a barrel.)

MEETING PLACE:—Where we are not wanted.

TIME:—When we ought to be at work.

"THE ROYAL SONS OF REST."

THE SAINTS.

FOR THE WAY OF THE TRANSGRESSOR IS HARD.
Saturday Afternoon Drill.

AWKWARD SQUADS.

One On You

1

FRESHMAN (at drug-store)—"I'd like to get some sulphur. How much is it per pound?"

DR. DAVIS—"Twenty cents."

FRESHMAN—"I can get it down town for fifteen."

DR. DAVIS (growling)—"Yep, go to h—l and you can get it for nothing."

Y. M. C. A. SECRETARY—"I wish you to do some canvassing for me to-night."

"BIRD" EAGLE (five minutes later)—"Hey, you ugly sinner, let's go to the Y. M. C. A.; we are going to have a devil of a time up there to-night."

BRYAN—"If I had an imagination like you I'd be a millionaire in a few years."

WILITE—"Yes, and if I had your appetite I'd be a pauper."

"RUNT" ABERNATHY—"Say, what size shoe do you wear?"

"DUTCH" SEIFERT—"I wear a number four."

"RUNT" ABERNATHY—"Well, where do you put your foot?"

"DOCK"—"I want a drawing pencil."

HENDRICK—"A 5-H or a 4-H?"

"DOCK"—"About a ten-cent one."

LITTLE (in hospital)—"Freshman, what course are you taking up here?"

FAIRLEY—"Calomel."

What Professor did Poyner direct to the janitor when asked for the Labor Bureau?

"PIE" GAINNEY (to professor of heating system, jokingly)—"Fessor, I am cold up here."

PROF. PARKS—"Why don't you get yourself some undershirts?"

GLASSER (reading a comic about himself in *Red and White*)—"Huh, next time I say anything I am going to keep my mouth shut."

FRESHIE (in mess-hall)—"I am eating a lot of this rabbit because I have to go on delinquent drill this afternoon and I wish to run well."

DR. HILL—"Mr. Goss, did you ever see Exeter Cathedral?"

GOSS—"No, sir."

DR. HILL—"Did you ever see a picture of it?"

GOSS—"No, sir."

DR. HILL—"I thought so; there is one in to-day's lesson."

HARRISON—"Fellows, why is it they are hanging so many reformers (transformers) on these electric light poles?"

"DOCK" (in mess-hall)—"If that had been me, I would have given you the bigger piece of pie."

SOPH.—"What you fussing about, Freshman; ain't I got it?"

POYNER—"Bird 'Eagle, if you don't settle your account with me very soon, I am going to get a 'Habeas Corpus' on your trunk."

Letter From a Dazed Father to His Hazing Son

(Being an aftermath of the knock-down
and drag-out on the athletic field.)

MY DEAR SON :

I noticed in a recent issue of our local oracle an account of the late uprising at A. and M., in which many Freshmen and Sophomores were sacrificed in order that Sophomore supremacy might be established and a college education be vindicated. I would suggest that you devote a little less time to manslaughter and work a little harder on your other studies.

At the present time the demand for successful murderers is extremely limited. You may consider it artistic to use the starboard optic of a Freshman for a hand-painted marine view, but to me it seems crude and barbarous. As I have never had the advantage of higher education nor "suffered from an acute attack of the inflammatory rah-rah," I may not be qualified to speak on this subject. Your method of sending a Freshman to the "golden whence" or the "hot hereafter" lacks grace, artistic finish, and refinement, and you would have been looked upon with contempt and disdain during the days of the Borgias. Why not try prussic acid, chloroform, or something else equally painless and effective? Besides, if you will only give the Freshmen a chance, they will blow themselves up in the chemical laboratory or electrocute themselves in the power-house. Your method when properly executed leaves only a memory of the deceased. The remains of the victim are so few and scattered that they have to be collected with a microscope and a blotting paper. There isn't even a sufficient amount to hold an inquest over, to mourn for, or for an obituary notice. A collar button, a few teeth and gold fillings are all that we have to show that the late lamented once existed. What could be more pathetic than to see a coroner's jury sorrowfully sit on a display of cheap jewelry and a few stray teeth and return a verdict that the deceased had come to his death by a blow on the head at the hands of unknown parties?

Think what a touching scene there would be when the fond mother sorrowfully gazed on a few bicuspid, a ten-karat collar button, and two dollars and ninety cents worth of gold fillings (all that is mortal of her little bunch of sunshine). Think, too, of the hard task you have set for the minister when he conducts the funeral services. What wonderful power he would have to possess in order to deliver a funeral oration that would convince the sorrowing friends and relatives that the casket before them contained what was once the pride and future hope of the fond parents. Think what a demand this would make upon the imagination of the witnesses. Your method may lighten the burden of the pall-bearers, but the funeral expenses remain about the same.

The sad end of the Freshman recalls an accident that happened in the West Virginia oil fields. One of the "shooters" "shot" a well, but could not reach a place of safety before the nitro-glycerine exploded, and he was spontaneously distributed in the surrounding atmosphere. The only remains found were a pair of false teeth with a death grip on a bunch of whiskers. The false teeth had probably mistaken the whiskers for shredded wheat in their somewhat hurried exit and bitten them off. His wife, on being informed of the death, telegraphed for the remains, and sent a black suit for him to be buried in. The suit was returned to her by express and the body was enclosed in a cigar-box and forwarded by registered mail. The widow had to use a tack hammer in order to take a last look.

When I mortgaged the farm and led you by the hand to West Raleigh to bathe at Wisdom's Font, I supposed you would be in an atmosphere of culture and refinement and fertilizer fumes. I thought you would be under a Christian, home-like influence (all for forty-five dollars a year plus board), and did not dream that you were ambitious to start out on a career of annihilation.

Ambition is all right, provided you don't overdo it as did J. Caesar, who was unfortunate in not having Cardinal Wolsey or myself as confidential adviser.

A career is a mirage that robs our farms of good agriculturists and over-supplies the demand for leading men for our ten-twenty-thirty class of repertoire companies. It also explains why the S. R. O. sign is working over-time at the home for decayed actors. Saturate your system with algebra, entomology, veterinary science, etc., and come home a walking bureau of useless information. When you have arrived at that period of life where you are compelled to comb your hair with a sponge, you will have all the necessary qualifications to hold down a position as teacher at a cross-roads school, or be a successful politician, if you do not care to hoe corn. If you have no desire to diffuse knowledge, fit yourself to relieve some octopus of his "frenzied financial" burden, but don't send me any more bills for apparatus you break(?) in the laboratory. Work hard and be good even at the cost of being considered eccentric. Don't count the day lost that you let pass without distributing the elements of an unfortunate Freshman upon the bloody sands of the athletic field. Don't let faith in human nature play such a small part in the drama of your life that you are compelled to maintain your own vicious standing by referring to the sins and omissions of others. Let me hear from you soon.

With love,

FATHER.

Record of Events

- '07.
- Sept. 5—College opens with 52 men in Senior class—a lovely deck.
8—Glasser, the joker, arrives.
16—St. Mary's opens.
30—First Dress Parade.
- Oct. 7—5:15. Gibbs makes his appearance on Dress Parade.
5:18. Gibbs makes his disappearance from Dress Parade.
9—Smith, E. E., falls in love and reforms.
10—Sophomores corner hair.
11—Poyner barks up wrong sapling.
12—Lieutenant Young's Saturday squad makes only forty miles in two hours and a half. A slow squad.
16—Competitive drill at Fair Grounds.
23—Sophomore rush.
24—Freshmen rush. } The deuce to pay.
25—Dr. Winston is rushed.
- Nov. 6—Owing to financial panic, ACROMECK stock drops from 110 to 64.
23—Water in bath-room. Temperature 30 degrees.
28—Norfolk game.
- Dec. 2—Celebration in town.
12—Examinations begin.
14—Juniors win class football cup.
18—Mr. Loftin thinks he is a fire department.

Two-Horse Pull Power Baling Press Ready for the Road

A Successful Hay Press

Successful—because it makes neat, compact and uniform bales, is operated with less amount of power, and has greater capacity than any other press of its size.

The power is a full circle with two strokes of the plunger to one revolution of the sweep, and is made on the compound lever principle, giving speed and great power where they are needed.

The toggle joint construction of the plunger gives greater compression power with less energy than other method known to modern science.

The I. H. C. press is made in one and two-horse power. The one-horse press has a 14" x 18" bale chamber.

The two-horse press is built with three sizes of bale chamber—14" x 18", 16" x 18" and 17" x 22".

Call on the local agent and inspect this press. Write for complete information.

International Harvester Company of America
CHICAGO (Incorporated) U. S. A.

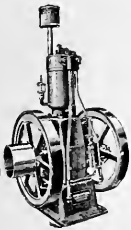

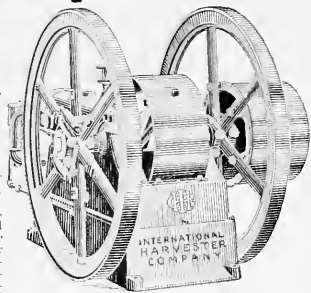

An Ever Ready Farm Helper!

Are you looking for a thoroughly reliable helper—one that pumps water, runs the cream separator, churn, washing machine, feed grinder, sheller, bone cutter, saw and other machines without getting tired and quitting because the work is too arduous?

If you are, you need an I. H. C. gasoline engine, for it is the best helper for operating the various farm machines. It requires practically no attention and will do the work economically.

You will always find work for a reliable power like the I. H. C. gasoline engine, because I. H. C. power is adapted to every farm purpose.

I. H. C. gasoline engines are made in various sizes and styles among which will be found a power suitable for every farm. There is the Vertical 2- and 3-horse power; Horizontal, stationary and portable, 4-, 6-, 8-, 10-, 12-, 15- and 20-horse power; Traction 10-, 12-, 15- and 20-horse power; also 1-horse power Tom Thumb, Air Cooled, and Sawing, Spraying, Pumping outfits and Jacks. If you want an ever ready helper for your farm, call on the local agent, who will fully explain the excellent features of these engines, and also supply you with catalog, or write the home office for colored hanger and booklet, "Three Hundred Years of Power Development."
